

2007 May 10 Thu

Uploaded update to website yesterday evening.

Strong radiation this morning as I sat in my study - right shoulder prickling - Monish Das targeting me from the right. Menon females - BMs elder daughter - targeting me from below. Now 9:30am and radiation is high enough to make me sweat - targeting upper body, and still the right side of my body is being targeted by MD.

High radiation all morning - continuing to be targeted in my study.

Total Environment maintenance manager came to see - I'd refused to pay the maintenance fees until they replaced the deviant property manager Mani - during the course of the conversation he told me that he'd gotten positive feedback about Mani from the residents of Block 2, the most complaints were from this block ! Surreal ...

High radiation while watching TV last night in living room.

2007 May 11 Fri

Last night, BMs elder daughter targeting me - woken up by the radiation targeting my head. Now 5:30pm - radiation in study - upper body.

Now 6:45pm radiation higher - BMs elder daughter targeting me from below.

High radiation again while watching TV.

2007 May 12 Sat

Again little sleep last night - woken up 7:45am - police officer with a summons asking me to come to Ulsoor ACP office "for enquiry of a petition given to the NHRC on 29-03-2005", at 4:30pm.

My petition to the NHRC was dated 12/05/2006. So I have no idea what this refers to, whether it supports me or targets me !

Now 11:40am, I am updating website with NHRC acknowledgement letter, this police summons letter and a text file with some personal observations intending to summarize the situation, which I plan to give the ACP - all on a CD. I will also take along a printout of my previous complaint summary given to the Indiranagar police station, so he has some idea of the history.
