

2008 March 4, Tue

The Menon paandis kept the radiation up all night last night - casually targeting my head, abdomen in turns - I was shouting as loudly as I could every fifteen minutes or so for most of the night. It didn't bother them. The police paandis patrolling NM road on motorcycle.

Some of the north Indian paandis living in the nearby flats apparently had gone to the police station to give a complaint against me. They returned to do a nautanki on the road outside my flat "Woh bol rahen hain, uska koi kasoore nahin. Dimaag kharaab hain, hamaara neend haraam kar raha hai". A couple of Nimhans paandis outside responding to them "we are going to take care of ...". A police paandi officer giving orders that I should be taken to the mental hospital in the morning "avaru mental patient aanu", then in a response to another question about the paandis, saying "avarude joli poyee". Maybe this fellow was from Jeevanbhima Nagar police station - had heard the paandis talking about a subinspector from JB Nagar station who had stolen my bank passbook from my vehicle.

Then a couple more paandi police to reassure the neighbourhood that they needed to do nothing, that the police were not all dogs, that "aa kutti" needed to be committed to an asylum, that the "Supreme Court" had to dispose of a petition by the paandis, and after that, everything would be all right, etc. They are just waiting for a "report" ...

So stalking, radiation exposure, sadism, poisoning, pornographic voyeurism, sex with minors, blackmail are not actionable crimes, the police need to see some testimonial letters.

A letter from the US attorney general, a letter from the "US President", a letter from the Defence Secretary, a letter from the "Home Minister". A testimonial from Nimhans, an opinion from the employers, a testimonial from the neighbours.

And with these testimonials, they negotiate their hafta and soft perks - like business class travel to foreign countries, all expenses taken care of, escorting foreign sex deviants and supervising their arrangements for committing more crimes.

Hard evidence and eye-witnesses are a major problem - those would mean actual police work - registering a criminal case, a court trial, conviction and imprisonment of these deranged psychopaths.

I suppose these are the finest Indian officers that money can buy. These corrupt diseased dogs need a collar and leash to reflect their true status. What is the definition of sedition?

2008 March 3, Mon

The Menons carefully targeting me last night - high heat sensation - targeting my chest, then abdomen, when I went to bed. Middle of night, woke up to find my head was being targeted - focused beam on back and right of my head. Then woken up again early a.m. by knocking sounds, coming from my wardrobe.

Now 11am, as soon as I got into my study, Meghana Menon on sadism duty. Later heard her practicing her routine "But I'm not doing anything!"

1:20pm, Meghana Menon muttering below me - large increase in radiation - skin on my abdomen and sides prickling.

2:25pm, another burst of radiation in my study.

3:30pm, Meghana Menon again below me doing her "what are we going to do?" routine and simultaneously giving me a burst of radiation.

4:40pm, feeling very sleepy - very little sleep last night - the Menons keeping a sadism vigil - if I try to take a nap, they are immediately underneath me to give me a burst of radiation just at the point where I begin to doze off.

6:30pm, Meghana Menon has been right below me for the past couple hours as the paandis outside do their nautanki routine - keeping me targeted - now focusing on my head.

9pm, another burst of radiation from the Menons, accompanying a nautanki from Satan jr. outside. The american paandis appear to be enjoying their melodramatic exercises - sobbing "uncle,uncle!" etc. while Inspector Naga* roams around.

9:30pm, menons increasing the radiation again - now targeting my abdomen. Heat and cramping sensation. It appears to be an adult Menon - likely AMs brother. Shouted out a few times.

9:32 pm - Monish Das getting in on the act - he's right behind the wall a few feet away from me, making muttering noises - simultaneously targeting me - the right side of my neck prickling now.

2008 March 2, Sun

Early a.m., commotion in Menons flat. As I'd heard once before, the Menons disassembling some plumbing - Ashok Menons brother in charge of the work. The last time I'd heard this, it had been Bindu Menon. They appeared to be responding to some nautanki outside - don't know what it was about - maybe an impending "search" of the Menons flat any moment now, etc.

Went to Hoskote this morning with local PG pilots to a dry lake bed to practice some kiting with my wing. Within about half an hour, paandis came by - Satan jr. escorted by a paandi cop... other local paandi recruits on motorcycles, with the local village teenage boys.

Got back to my flat around noon. Meghana Menon immediately on sadism duty - she has been targeting me all day in my study, now 7:10pm. Monish Das now also in on the sadism action.

8pm, Meghana Menon keeping the radiation up - still targeting my head and upper body.

9:20pm, the Menons now targeting my chest and back - high heat sensation, sweating.

The paandis including Satan jr. and Nimp along with a bunch of their local paandis, outside on NM road - Satan jr. practicing his sob story - this time it was about a suffering "Jonathan" and a "gorgeous" girl.

10pm, the Menons increasing the radiation.
