

2008 March 8, Sat

Woke up middle of last night to find Meghana Menon was busy focusing the radiation on my abdomen and genitals. When I shouted out, response from female Nimhans paandis outside, doing their "everyone please pay attention to us" nautanki, and Meghana Menon below me doing her routine "but I wasn't doing anything!" She continued to target me after that.

Now 9:30am in my study, when I sat down, the little psychopath started by targeting my abdomen, heat and prickling skin sensation - I did not shout for about fifteen minutes, she then slowly started to increase the radiation. After I shouted, she was evidently satisfied, and pumped up the radiation.

Initially, the Menon paandi routine was that they were simply carrying out "orders" from "Panicker Uncle" of "Army Intelligence", they didn't understand why I was shouting, but they were given the radiation equipment to "control" me after I started shouting for no reason. The new Menon paandi routine is "but I'm not doing anything!".

Now an adult menon has joined the little killer - both targeting me, high radiation.

And so the paandi game continues with the "secret court bench" ensuring that there are always a sufficient number of psychopath sadists in the flats adjacent to mine, with all the radiation and poisoning apparatus at their disposal, and the american sex deviants are kept outside to entertain the public with their "woe is us" routine.

The court bench shakes its head in mock distress "That man is a god..", the paandis come back home raging "they think he's god!" and promptly focus the radiation on me. They get their sexual and sadistic kicks out of seeing "god" pass gas, defecate, take a shower, squirm and shout when they target "god" with radiation...

Its become the paandi's current tag line - to rant "they think he's god!" while they do something particularly murderous or sadistic...

No acknowledgement, but our taxes pay for the salaries of these devious corrupt pigs ...

Adult menon (AMs brother ?) targeting me in the chest now - waves of pulsing pain, as I was just converting this log to send it off to the NHRC.

More female Nimhans paandis in the Menons flat later in the morning - doleful mood. Menons assuring them "don't worry, we won't do anything".

2:30pm in my study - radiation up again.

3:40pm, tried to take a nap in my study, immediately Ashok Menons brother got to work below me - slowly increasing the radiation - until just before I shouted, the psychopath muttering below me "he's god!"

2008 March 7, Fri

Early am, high radiation in my bedroom - shouting as loudly as I could did not help, the Menons kept it high. It was one of the adult Menons - a woman I suspect.

Then the usual paandi nautanki squawking started on NM road - Satan jr. in charge of the initiation - then the police paandis including Naga* - apparently about a local well known High Court judge - not sure if some "judge" had appeared on the paandi stage or not. Naga* doing his bit on stage - "patti ke kollam pono?" Surreal ...

10:35am, radiation from the Menons flat increasing over the past few minutes - very high now, targeting my head. Again, it seems to be an adult female Menon targeting me.

Monish Das targeting me as well now. 11am, MD is right behind the wall, high radiation on the right side of my body.

2:50pm, Menons below me increasing the radiation in my study. Targeting upper body. As I typed this, the paandi increased the radiation again.

Afternoon, Satan jr. keeping up his new nautanki story - reporting that the same judge had "gone to New Delhi".

7:40pm, very high radiation in my study, menon paandis targeting me. Its meghana menon again - after I shouted out, she started her routine "we have proof!"

7:55pm Monish Das also targeting me now. 8pm in my study, radiation is very high now, one of the adult menon paandis just followed me like a magnet below me as I got up, went to the bathroom on the other side of the flat, and returned, keeping me targeted all the time.

An adult menon targeting me now at 8:50pm - very high radiation. Shouted out a few times, the paandi quite happy.

10:10pm, next paandi radiation cycle peak - Meghana Menon below me.

2008 March 6, Thu

Last night returned home late around 1am in the night - as I drove up to my building, two fellows in plain clothes on a motorcycle - when I honked to get the security guard to open the gate, the two drove up behind me. One fellow said "Checking,saar" and they proceeded to reprimand the guard while I was there, and after I drove into the basement garage.

Woke up early am to find my head being targeted - meghana menon below me - angrily muttering when I shouted out.

Now 1pm, being targeted in my study by the Menon paandis.

5:25pm, Menon paandi experimenting - moving around below me, has been targeting me for a while, increasing the radiation, apparently bothered that I have not shouted out yet.

Menon paandi then faithfully watching me and making some unintelligible noises while I sat on the bathroom commode - Incredible India !! And of course the paandis outside have been doing their "woe is us" status routine all day. No change in the radiation exposure, deviant voyeurism, sadism - all the radiation exposure equipment is in place, all the sadist paandis are in place, what an amazing country !

7:50pm, Meghana Menon increasing the radiation - "we have proof!"

2008 March 5, Wed

The menons waited until I was asleep last night before increasing the radiation. Woke up to find my head being targeted - some new sort of radiation equipment. Downstairs, Ashok Menons brothers daughter was crying, "Daddy stop it !" - it was this fellow targeting me.

After I shouted out, Meghana Menon took over for the rest of the night with the usual radiation equipment - apparently they have their own personalized torture equipment.

During the night, Satan jr. was thoroughly enjoying himself "exposing" his accomplices over the past few years - heard him going on about the authorities conducting a "lightning raid" on "Trojan Electronics" . I had seen that name printed on the side of a

vehicle - Trojan Electronics & Security - in Indiranagar in the late 90s when I was living there. It was a private security company used by these sex deviants - they were trying to intimidate me as I went to and from office.

Satan jr. was also mimicking someone - I suspect Meghana Menon - describing a woman "she has nice boobies". **This went on most of the night - the american sex deviants are really happy with the attention they are getting, with no fear of being accountable for their crimes - this is a safe country for sex deviants with "authorization".**

I guess once in a blue moon, degenerates like these paandis fail to pay off a govt. officer, and the story is "leaked" to make the news - like the Dr. Evil kidney scam in Gurgaon. Incredible India !!

The police were outside on NM road on paandi protection duty listening to Satan jr. and occasionally making their own melodramatic speeches.

10:15am now in my study, and Meghana Menon is on sadism duty below me, muttering "we have proof!" as she targets me - chest ache, heat, skin prickling.

11:20am, Meghana Menon increasing the radiation - now all of upper body and head being targeted. No effect when I shouted out a few times.

12:20pm, a menon paandi stalking me as I walked through the flat, as soon as I sat down in my study, very high radiation - skin prickling again.

2:35pm, Monish Das now targeting me from the right and the Menons from below.

7:50pm, continued radiation from the Menons in my study - targeting my head now.

Went out around 8pm, checked my mailbox, found a courier envelope containing airline tickets that I had ordered. I have been at home all day today and yesterday ! Security guard said he had come on night duty, he didn't know about the courier delivery.

2008 March 4, Tue

Updated website and NHRC with my logs. Unbelievable that the paandis can commit crimes day in and day out for years on end without hindrance - the police braying in the street that they are either waiting for XYZ to give them a "report", or just about to arrest me.

Now 11:15am, just about 15 minutes after I sent the email, high radiation in my study. The Menon paandis getting into the groove again.

A female adult Menon paandi walking around under me for the past hour or so, focusing the radiation on me. They've started their routine again "They think he's God!".

4pm, Meghana Menon has been increasing the radiation since the past one hour in my study.

9:50pm, Meghana Menon has been periodically targeting me all evening - bursts of radiation to make me shout out every half an hour or so in my study.
