Same pattern of radiation last night as previous night, the paandi uncle first increasing the radiation until I shouted out several times, then his wife coming over to retrieve him and put the little whore Meghana Menon in charge, and actually giving him advice - saying that no one would do anything to the girl, but he could get into trouble !

The paandis are using several types of radiation equipment again - the familiar skin prickling, itching beam - another one that they are able to focus on my internal organs, and one that causes a dizzy sensation - pulsing beam.

5:10pm the paandi Menons targeting me through the day, occasionally increasing the radiation.

**The police and nimhans paandis as usual doing their routine visiting the Menon and Das paandis, with absolutely no effect on their behaviour or their inventory of peepshow and radiation torture equipment. In fact, they appear to be more and more casual in their sex deviant/sadist/voyeur behaviour as time goes on.**

Tuesday, June 24, 2008

High radiation last night when I went to bed. The paandi Menon uncle was obviously in a mood for some sadism attention - he kept the radiation up until I had shouted out several times over 15 minutes, and the paandi police outside got sufficiently excited. After that the radiation was decreased to discomfort level - stayed that way all night.

Today, radiation in my study at discomfort level targeting my head. Occasionally the paandis would come into the room below me to play with the equipment, spiking the radiation to make my body itch and skin prickle.

7:30pm, Meghana Menon below me spiking the radiation, looking for a good shout from me.

Monday, June 23, 2008

Strong radiation last night, targeting my head.

Now 3:40pm, the little whore Meghana Menon targeting me from below - high radiation targeting my head.

8:15pm, the Menon paandis periodically spiking the radiation all evening - the deviant uncle, Meghana Menon, and the deviant aunt coming over to whisper advice to her husband as he targeted me from below.

9:55pm, the Menon paandis increasing the radiation - targeting my abdomen - beam focused inside my abdomen - burning sensation. Both Meghana Menon and her deviant uncle enjoying themselves.

Sunday, June 22, 2008

**Went for a party at a friends house in Kasturi Nagar last night - the full entourage of foreign paandis and their police escorts including Nagaraja were there - in full flow. I was being targeted in the house with radiation - the paandis in top excitement mode doing their expert comments/corrections on every utterance of mine - they always love new audiences, competing with each other to display their voyeur expertise, it seems to be another group orgy thing for them - feeding off each other and their**

audience reactions. On NM road next to my flat, they create their own audience to feed them - last night it was a feast - a real audience !

Early am today, the Menon uncle-niece duo getting it on again, but this time not directly under me. Soon after the girl had finished servicing her uncle, the paandi police outside doing their routine "avare pinne ayike cheyido?" The little whore Meghana Menon waiting for her nautanki trigger to retort "I can do whatever I want!" "They can't do anything to me".

8pm, the Menon paandis have been keeping the radiation constant all day at the edge of my threshold for shouting out - skin prickling and itching constantly, Meghana Menon doggedly following me around the flat.

9:55pm, the little whore Meghana Menon increasing the radiation again.

Saturday, June 21, 2008

The police and nimhans paandis doing a q&a session routine with the Menons today, no change to the radiation pattern - the deviant uncle keeping me targeted through the day. It seemed as though Meghana Menon was missing during the day though. At one point a severe headache as I was drinking tea, leading me to wonder for a moment whether they had gotten into the flat with their supply of poisons and drugs. That went away as soon as I got up and went to the other side of the flat, with the menon deviant uncle snickering and following right under me.

Inspector Nagaraja and his chelas with the core foreign paandis as per his daily routine outside on NM road.

8:10pm, the Menon paandis increased the radiation in my study. Targeting my entire body, skin prickling on my back, arms, genitals.

8:40pm, an adult Menon paandi focusing the radiation on me as I combed my hair in my bathroom, my back actually spasming with the radiation burst. The paandi saying "enikye paticho, nee" - sounded like a woman. I wonder if the degenerate grandmother is back in the flat. For a few months now, I have not seen this woman doing her zombie act in the basement garage. Inspector Nagaraja and his paandi chelas very happy with the incident - shrieking outside - so its possible the police/nimhans/magistrate have repeated their usual innovative musical chairs act of recycling the deviant neighbours - the innovation being that they supply fresh paandis or 'medical treatment complete' paandis in this sex deviants game.

Friday, June 20, 2008

Both meghana Menon and her uncle targeting me through the night - woken up a few times by strange sounds, and activity downstairs in the Menons flat, the police and nimhans paandis active outside as well. Shouted out a few times - Meghana menon and her uncle keeping me targeted.

As soon as I got into my study today, high radiation. Now 11:15am, the menons targeting my upper body - high radiation, skin itching and prickling on my hands and shoulders. Early the little whore was targeting my lower body, focusing on my genitals.

The paandis outside enjoying their routines - I am planning a paragliding trip to France in July and these Government of India sex deviants are obviously looking forward to a junket trip as part of the entourage escorting the american degenerates. Just biding their time with their daily routines.

Thursday, June 19, 2008

The Nimhans paandis hovering around the apartment building along with their pervert police associates - these govt. perverts are really into their nautanki now - all of them pointing to each other "I am sorry sir, you have lost your mental balance", or not pointing to me "Mr Nair is not being charged with any crimes", regularly recycling their routines to keep the neighbourhood entertained with their "something is happening, no need for any witnesses, all being taken care of, reports are being submitted, etc." that they have been perfecting for 24 hours, 7 days a week, for several years now.

1:45pm, Monish Das targeting me from the right. Radiation targeting my upper body and head. Meghana Menon below me.

Got another letter from the NHRC dated June 11, 2008 saying that no action was required on my case number 1700/10/1/07-08/OC and hence the file was being closed. I have no idea what this case number is referencing ! I have been submitting reports to the NHRC referencing the number that I got in my original letter from them ... Incredible India ...

8:35pm, Meghana Menon targeting my genitals and lower body as I sit in my study.

Wednesday, June 18, 2008

Discomfort level radiation all of last night targeting my head. The malayali 'reporter' paandis doing an organized nautanki with the police this morning for the usual q&a sessions to assure the neighbourhood that 'full investigations' are ongoing.

The Menon paandis have been targeting me since I got into my study at 9am, Meghana Menon carefully targeting my genitals when I sat down.

12:40pm, now the radiation is more targeted at my upper body.

6pm, Meghana Menons uncle (AMS brother) coming into the room below me and spiking the radiation immediately in response to the police paaandis shrieking and squealing outside on NM Road. The deviant bastard was just waiting for the opportunity ...

The paandi Menons doing their nautanki with Nimhans paandis this afternoon - the degenerate uncle going "he has defamed me and my wife ..." then a few seconds later, Meghana menon going "I'm sorry!". This is just a game for them - peep show perversion, sadism, sex with their niece, no problem - "we have permission! We have proof!" incredible India ...

8:30pm, the paandi Menons increasing the radiation again - skin prickling on my arms and neck. After I typed this, the deviant uncle setting up below me and increasing the radiation again.

Tuesday, June 17, 2008

The paandis outside going into status broadcast overdrive. Inspector Nagaraja very much in the forefront - he appears to consider himself the chief paandi now, from his frequent shrieking.

1:15pm in my study, the Menon paandis below me periodically spiking the radiation. Both the Menons and Monish Das making periodic outraged noises in sync with the nautanki outside.

5pm, the Menon paandis spiking the radiation in my study.

7:40pm, high radiation, I shouted out. Immediate phone call on my mobile asking for 'Kutta' from +918336223590.

8:20pm, Monish Das targeting me now - high radiation targeting my abdomen. Of course as soon as I typed this, the little whore Meghana Menon getting below me and increasing the radiation from below.

9pm very high radiation from the Menon paandis, Meghana Menon enjoying herself.

Monday, June 16, 2008

Same pattern as previous night, Meghana Menon keeping my head targeted through the night with radiation at discomfort level, increasing it in the morning.

**The police and nimhans paandis stepping up their nautanki the past couple of days - very stern attitude towards the paandis - while doing absolutely nothing as usual. The american paandis enjoying themselves - nimp and satan jr. doing a nice routine about how the menons were experimenting during the night to find out how to paralyze my diaphragm.**

This morning opened my door to find outside Monish Das's door, an empty cereal box of the exact same brand that I have been purchasing recently. I had seen before an empty carton outside his flat for the same HP multifunction printer/scanner/fax machine (model 4255) that I'd purchased ...

Went out to pay my electricity bill and to Indiranagar- followed by the paandis - a Malayali couple on Krishna Temple road, and returning from KR Puram, a car in the opposite direction crossing my vehicle at the railway underpass - a girl inside screaming that the paandis had renewed their permission to stay until I died.

Now 6pm - the Menon paandis getting fidgety - spiking my body with higher radiation. Heard the little whore Meghana Menon this afternoon doing her routine with some visiting adults "everyone hates me ...".

This morning I'd had trouble reading the newspaper - eyes not focusing. Even at 6pm I am still having trouble with the computer monitor.

**7pm radiation in my study has increased further, the paandis outside doing a new routine about their friend and associate "Krishna", another of their local godfathers appears to be a "Dr. Ambedkar".**

7:20pm, Monish Das now targeting me - he's glued to the other side of my study wall muttering to himself in response to the paandi nautanki outside. Spike of radiation as I typed this. Higher radiation - Monish Das targeting me from the right now. Right side of my face has sunburn sensation.

8:55pm, the deviant menon uncle increasing the radiation - focusing the beam across my body. Very high radiation - dry heat sensation on upper body.

**Outside the Nimhans paandis and police paandis taking turns pronouncing each other as paandis and that 'reports' had been submitted, all taken care of etc.**

Sunday, June 15, 2008

Nagaraja and Cherrapunji squealing and bawling most of last night and this morning, trying to get as much attention as possible - the Menon paandis targeting me with discomfort level radiation all of last night.

8pm, the Menon paandis have periodically been targeting me with another radiation source today - each time I felt dizzy as if I was going to lose my balance and fall. Both the deviant Uncle and niece using the equipment on me. Also being targeted with their usual equipment, they left it at discomfort level, only occasionally spiking me with higher radiation. The police paandis and nimhans paandis doing their usual nautanki outside.

Now 8:15pm, my skin has a sunburn sensation. 8:35pm, very high radiation targeting my body. Monish Das targeting me.

9:35pm, very high radiation, Monish Das again active behind the right wall of my study.

Saturday, June 14, 2008

Very high radiation last night when I went to bed, Meghana Menon had set up on their 'observation deck' below me - close to my body, targeting my legs and genitals for quite a while - shouted out for about half an hour, then the radiation subsided to discomfort level, targeting my head for the rest of the night.

Went to do some ground training with my paraglider at Hoskote this afternoon - the full entourage of paandi police behind me - immediate nautanki start up with Cherrapunji bleating, another paandi fingering him as a paandi, and so on and so forth. They sent a few goons to come out into the field where we had set up - one asking where my passport was etc.

As soon as I got back, the menon paandis setting up with low radiation, slowly increasing it.

7:50pm, the Menon paandis have been increasing the radiation in my study slowly over the past hour - very high now targeting my upper body. The deviant uncle at work. My skin has a burning sensation on the back of my neck. Inspector Nagaraja outside trying to get the attention of pedestrians on Nagavarapalya Main road. After shouting for five minutes, the deviant menon uncle appears to be getting stimulated - he is right below me now.

Meghana Menon was starting to enjoy herself - starting up one of her routines "We can't even go anywhere ...". 9pm, continued high radiation in my study.

9:30pm, Meghana Menon following me around keeping me targeted.

Friday, June 13, 2008

Middle of last night, Meghana Menon increasing the radiation last night, not sure what she had got stimulated by, but the radiation rose to the point where even after I shouted out for a few minutes, she kept the beam focused on my head and with high radiation.

I yelled at the group of nimhans paandis, malayali sex deviant 'reporters', police etc. for several minutes as loudly as I could, but it soon became clear that they enjoy the attention even the abuse - anything and everything is a trigger for another mini-nautanki complete with 'good guys' and 'bad guys' doing their q&a routines. 'Corrupt pigshit' about sums it up - they enjoy it !

More paandi nautanki outside, the Menon paandis going into 'evidence removal' mode, the uncle going into what I guess would be the bathroom below - that appears to be where a significant amount of their surveillance equipment is stored. A minute later, I heard a sound from my kitchen, something like an object being pulled through a tube.

**Then Meghana Menon returned to her position below me and increased the radiation again, back to the same levels.**

Morning wake up call with a focused beam of radiation centre of my chest, it was the little sadist whore Meghana Menon again.

The paandi police organized a group of more malayali 'reporters' to do a nautanki q&a session on Nagavarapalya Main road in the morning as per their usual pattern.

12:50pm, the menon 'uncle' has settled down below me with satisfied grunts as I started browsing the net - the fellow seems to get kicks from this daily voyeuristic fix - watching me read and respond to email, read RSS feeds etc. The uncle-niece sex combo and Monish Das settle down to their daily routine of watching me settle down to my daily routine ...

Found the Bulgaria invitation letter in my mailbox - it arrived 16 days after the postmarked send date (26 May).

**He has the radiation targeting my head and seems to be feeling very comfortable after the nights attention and multiple road shows by the perverts outside.**

8:30pm, the deviant menon uncle has been very slowly increasing the radiation over the past hour, now very high, targeting my upper body. The paandi police outside including Nagaraja et al all doing their routine.

Thursday, June 12, 2008

8:35pm, Monish Das has moved into position very quietly - very high radiation in my study now.

Cherrapunji doing his bleating routine on N M road outside simultaneously.

8:45pm, the Menons getting into position - high radiation burst from them.

8:55pm, periodic bursts of radiation from the Menons and Monish Das.

Wednesday, June 11, 2008

Went to Sadar Patrapa road in the afternoon, followed by the paandi police brigade, making their usual demented comments behind me as I walked on the road. The paandi police had also organized a group of local north Indian businessmen paandis to do a sightseeing tour that consisted of following me into the shops and then trying to get attention of the shop owner, giving me the usual paandi zombie smiles and tee-hee looks when I turned to look at them.

As I drove home, just near my Basith road turnoff, saw a white maruti gypsy driving slowly in the opposite direction, a fellow in khaki driving, an older man in civilian clothes in the passenger seat - the vehicle emblazoned with "Govt. Security" - they both looked decidedly uncomfortable as I drove past looking at them.

Afternoon, the menon paandis occasionally increasing the radiation, otherwise at discomfort level.

7:45pm, Meghana Menon increasing the radiation, as soon as I shouted out, immediately responding "I'm not doing anything !" - Heard her say this about 5-6 times today, nimhans paandis were in the neighbourhood to keep vigil for any witnesses. They are

more worried than the police that someone will approach me and corroborate my statements.

After I typed the above, the Menon paandis increased the radiation again. And as usual when I shout, the paandis police and nimhans immediately congregate on the road to draw attention to themselves there instead of towards the Menons or Monish Das.
