

2008 11 27 Thu

Did not sleep at all last night, the Menons keeping me targeted with high radiation all night long. The paandi Ravi Menon at work most of the time - for a long while targeting my lower abdomen - heat and painful cramping sensation - had to get up twice to empty my bladder. Then after he'd had enough fun targeting my lower body, he started to focus the beam on my head. Meanwhile outside on the street, the police busy doing their own perversion digression routines - threatening residents of neighbouring buildings - to keep them distracted while Ravi Menon went about the torture very systematically - I was shouting out about every half an hour or so all night long, the police outside advising the residents to just keep their windows closed so they would not be disturbed.

Even heard Meghana Menon below me protesting to her aunt about her last sexual encounter with Ravi Menon - "we were in the room and we closed the door!" - apparently that was an improvement over her past sexual encounters with her uncle. A family of psychopaths.

Today the Menons were more circumspect during the day, keeping the radiation at a lower level. The foreign paandis including Nimp and Satan jr. enthusiastically giving a running commentary on an imaginary "investigation" and "questioning" of the paandi perverts for the benefit of entertaining the neighbourhood. A couple of nimhans doctor psychopaths - one male, one female - appeared to bolster this nautanki.

Now at 7:45pm, the Menons are at again - same pattern as last night, Ravi Menon targeting my lower abdomen as I sit in my study, after an introductory burst of radiation targeting my back to make me shout out and get him all warmed up for the nights sadism.

Nagaraja outside to stimulate the sadism, as usual.

9:10pm, Ravi Menon increasing the radiation - again waiting for Nagaraja outside to provide the assurance of his presence with his brand of squealing nautanki. Still targeting my abdomen - heat and cramping sensation, occasional prickling of skin on my body as well. **He seems to have acquired another radiation toy in the last couple of days, coinciding with the increased nautanki display of the paandis being investigated and questioned.**

2008 11 26 Wed

8:40am, in my study, and already the radiation spiking experiments have started from below - an adult Menon on sadism duty. Meghana Menon apparently took the night off so she would be fresh for the days sadism "work".

Monish Das targeting me as well - the degenerate has moved into place very quietly next to the right wall of my study.

8:50am, now Meghana Menon is back on duty below me. Radiation increasing again.

Meghana Menon more cautious in the afternoon - no intense spikes - the paandi neighbours always regulate the radiation in response to the nature of the street nautanki enacted by the police paandis outside - waiting for Nagaraja to arrive and start his squealing before they boost the radiation to get me to start shouting.

**But now at 7:15pm, a huge spike in the radiation - both Meghana Menon and Monish Das targeting me simultaneously in my study. Extreme radiation burst again as I**

typed this - outside the police are in position for the nights sadism festivities. More bursts of radiation - the neighbouring paandis are enjoying themselves now. An adult Menon below doing the routine "they think he's god!" which they normally use to absolve themselves of their most degenerate crimes. This time it appeared to be an adult female Menon pervert - as the years have progressed, the number of pervert Menons have increased despite the disappearance of Ashok and Bindu Menon !! They have more than enough degenerates in the flat ready and willing to use the torture equipment - on a 24 hour basis.

Sex between uncle and the minor girl when they get bored of their microwave radiation torture, sleeping in shifts, waiting for the police perverts to arrive to get "serious" with their degenerate sadism - and this is cosmopolitan Bangalore, the Silicon Valley of Incredible India ...

7:40pm, again the radiation climbing - my earlobes hurting, then spikes of radiation targeting my upper body.

8:25pm, the radiation cycle peaking again - the Menons now in their ritualistic sadism mode.

Prank calls from 9740544300 and 9740803175 today - "missed calls", when I tried calling back, I found the calling phone had been "switched off".

2008 11 25 Tue

The Menon paandis systematically targeting me last night - boosting the radiation until I shouted out, then bringing it down, cycling it again after about an hour - they kept it up all night long. Police paandis outside to monitor the torture session was getting the right sort of attention and nautanki responses. As usual, the Menons getting calls on their landline during the periods I was awake.

9:30am - They have used some other sort of torture equipment as well today - a cramping pain sensation inside my abdomen when she targeted my abdomen this morning.

Meghana Menon following me around the flat all day to keep me targeted constantly.

Around 5pm a burst of intense radiation - Meghana Menon responding to Nagaraja's stimulus nautanki on the street outside.

7:10pm Meghana Menon again boosting the radiation below me. Now high and steadily getting higher.

8:20pm, Meghana Menon talking to herself as she increased the radiation again.

2008 11 24 Mon

The Menon paandis targeting me through the night taking turns, sometime in the middle of the night, a major commotion below and afterwards in the street. Heard a girl making choking sounds below me - likely Meghana Menon - all very dramatic. Followed by an adult Menon taking over the sadism duties.

It has been a regular pattern since I have returned from Himachal, for the Menons landline phone to ring a few times in the middle of the night, often left unanswered for about half a minute to ensure everyone hears that they are being "harassed" by the authorities, who are most definitely "promising to take stern action"

This is the usual govt. official catch phrase for assuring everyone that further bribes will be necessary.

The usual distraction perversion nautanki - from the usual street nautanki, this has graduated into father-daughter sex, uncle-niece sex, filmed pornography with children, training children to participate in their sex perversion skits.

This is just to ensure there are enough perversion digressions to keep everyone occupied. Screams of "my uncle!" "my husband!" "my mother!" "my cousin!" "my aunt!" etc. while they keep the radiation focused, exploit every poisoning opportunity, exploit every new voyeur pornography opportunity.

The main sex and sadism protagonists currently - Monish Das and the Menon family - are left untouched while a crowd of paandis screams on the road and in the neighbouring buildings about their endless suffering at the hands of the authorities.

Now 11:35am and the high radiation has already started - a menon below me targeting my head and my genitals. Monish Das on the right has already set up, targeting my head from the right side - intense pressure sensation inside my head, while the Menons are using something else - prickling, itching heat sensation on my genitals and body.

2:45pm, Intense radiation from the Menons - several bursts as I shouted out. Skin on my back and neck burning and prickling in pain.

3pm another burst of intense radiation, again from the Menons flat.

5:25pm, an adult Menon paandi below me experimenting to see me shout out again in pain as the radiation was spiked. Outside on the road, the foreign paandis doing their usual woe is us routine.

7:30pm, the radiation was off for about an hour or so - a distinct cool sensation when it was removed. I suspect the little depraved whore was re-charging the equipment - it is battery powered for sure, they are able to use it even when there is no power in the building. Now the psychopath is back under me and targeting my head again - heat, pressure and a prickling sensation on the back of my head.

8:40pm - the depraved Menons consistently keeping the radiation high now, targeting the back of my head from different angles - the little whore Meghana busy below me all the time. Outside the paandi cops threatening me - that my life would end if any of them were arrested. Seems to be standard behaviour for these animals.

And the laughable part is that there was a news article today in the Hindu about a police inspector in Karnataka who got suspended because he got on stage with his wife to participate in a local fashion show ! Now that is sick, depraved, treacherous, cowardly and corrupt behaviour ...

After I typed this, Nagaraja outside on the street squawling and bleating - these cowardly homosexual pervert sadists are definitely top candidates for a gold medal.

8:45pm - Another burst of extreme radiation, its Meghana Menon right below me again.

2008 11 23 Sun

Last night and Friday night, the Menon paandis targeting my genitals and lower abdomen most of the night until I finally fell asleep, then switching to target my head - keeping the beam tightly focused.

Now 5:50pm in my study. Radiation climbing. Meghana Menon has been periodically spiking the radiation all day long, following me around the flat to keep me targeted.

8pm, Meghana Menon continuing to spike the radiation in my study, talking to herself each time.

8:45pm, radiation is even higher - the paandis targeting me from behind and the back - focusing on my head.

2008 11 22 Sat

4:30pm, sudden activity downstairs, the Menons moving around under me, and then a high burst of radiation targeting my upper body.

6:30pm, the little sadist whore Meghana Menon periodically adjusting the radiation, it is targeting my head for the past hour and steadily increasing each time she gets below me muttering to herself.

2008 11 21 Fri

Ravi Menon targeting me last night as I tried to sleep, through the night.

3:20pm, Meghana Menon increasing the radiation in my study, very high now, targeting my upper body - prickling, heat sensation. A few minutes after she set up, Monish Das setting up on the right. The degenerate always makes sure the Menons have set up first and the reaction from the police paandis outside is appropriate before he himself sets up the radiation equipment to target me. Now both are in position and focusing the beams on me. Just after I typed this, the sadist coward increasing the radiation targeting my head.

Outside Nagaraja and his perverts doing the usual nautanki on the street.

Meghana Menon periodically boosting the radiation in the afternoon and evening, even as I walked around in my flat, speaking on the phone etc.

2008 11 20 Thu

An older woman in the stairlanding this morning going "nammade vithyatte kaanikyam pono?" - I suspect it is Ravi Menons mother - she is a cold blooded killer - suspect she was the one targeting me with the extreme radiation yesterday. She also has a habit of roaming the stair landing and basement garage in zombie mode with these pronouncements.

Around noon, the Menons targeting me with extremely high radiation as I walked around my flat dusting and mopping the floor.

6:10pm, for the past couple of hours Monish Das has been targeting my head with radiation from the right side.

11pm, the Menon paandis getting sadism withdrawal symptoms - another burst of intense radiation in my study - skin on entire upper body prickling in pain. Its Meghana Menon - she had likely slept in the afternoon and has just started the night torture shift. Outside Nagaraja doing his deranged nautanki on the street.

11:05pm, the sadist little whore has again steadily started increasing the radiation after I shouted out 5 minutes earlier.

2008 11 19 Wed

Last night, Ravi Menon and his niece Meghana Menon in another sexual encounter - they seem to want to get some attention for these encounters - after the moaning was over, I heard an adult woman telling Meghana Menon "your uncle has sacrificed his life for your family. Its the least you can do for him". That also seemed to be meant to be heard.

1:30pm, extremely high radiation from the Menons - the uncle and niece sex combo targeting me. Skin on my arms, neck and face prickling with the radiation. When I shouted out, the perverts increased the radiation for another few seconds - I shouted out again, and they finally decreased it - not enough sexual gratification for them the first time I shouted.

It appears to be Ravi Menons mother targeting me with the extreme radiation.

Just after I typed this, the Menon perverts increasing the radiation again to the same level.

5:45pm, the Menon paandis (Meghana Menon and an adult) have been periodically getting right underneath me and increasing the radiation to extreme levels to get me to shout out to get their sadism addiction fix.

2008 11 18 Tue

Last night i heard an older woman going "nammakye kootam pono?" as the nights torture started. Perhaps Ravi Menons mother is back in their flat. Very deliberate torture - I was lying with the right side of my face down on the pillow, and was blasted with radiation - felt my ear pop and simultaneously a bright flash in my closed right eye. After I shouted out several times in the course of half an hour or so, the radiation settled down to the usual level, lasting all night - the Menons making their usual aggrieved noises, their phone ringing several times etc.

Today Meghana Menon and Monish Das occasionally boosting the radiation in my study, the little sadist whore diligently following me around the flat as I moved from study to kitchen to bathroom - keeping me targeted all the time.

Went to Spencers dept store around 3pm to do my groceries, a paandi effeminate youth there giving me ingratiating smiles. At the checkout counter, two older men arrived - one acting rather pushy behind me, wanting to move the items on the counter that were being packed. He then picked up the bottled water that I had purchased, asking me loudly "Why you buy this item? No water?" The other older fellow in the next line making a warning gesture to him. They both apparently had liquor as their primary purchases.

Now 7:10pm, Monish Das and the Menons targeting my head with intense radiation.

Talking to a friend on my mobile phone - call dropped several times with the radiation. Have found it is impossible to call or receive a call for any length of time in my flat, before the connection breaks.

11:45pm - in my study. Meghana Menon below me experimenting with the radiation, muttering to herself, radiation targeting my chest and head. The sadists are impatient for me to get to bed so that they can get their sexual satisfaction out of hearing me shout out.

2008 11 17 Mon

11:35am, the Menons have been steadily increasing the radiation in my study over the past hour. As usual, this is in response to the sex perverts and their police escorts screaming and bawling on the road outside doing their "woe is us" routines. "Sadashivnagar!" "Nammakye vilikyam pono?" etc.

Ravi Menon targeting me through the night last night, now both the sex pervert 'uncle' and his niece Meghana Menon are targeting me.

11:55am, Monish Das has also been targeting me for a while now - radiation targeted at my head now.

8pm - for the past several hours, Ravi Menon and Meghana Menon has been targeting me with very high radiation - extreme uncomfortable heat and itching sensation. The paandis outside simultaneously keeping up their "avaruke kitti, nammakye kitti" woe is us nautanki routines all through the evening.

9:20pm, Meghana Menon talking to herself and increasing the radiation to get me to shout out for her satisfaction. Skin prickling on my back and arms.
