

2008 12 4 Thu

Last night woke up to intense radiation targeting my head. Below me, Meghana Menon was having sex with her uncle Ravi Menon - it was completely bizarre - a few seconds after I was awake, the Nimp outside on the street going theatrical "This is rape!" etc. They were obviously waiting for me to wake up before beginning the nau-tanki. Then a few minutes later paandi police arriving with female Nimhans psychopaths to do more drama on the street "nee paandi maare aanu!" etc. Then the Menons intercom phone ringing, sounds of people moving below, front door opening & closing ... the radiation targeting me stayed high, shifted to my lower abdomen and hips.

Then another Malayalam speaking police paandi arriving on the street side below my bedroom to dramatically announce "evare paisa vandakanayite cheyinnu!" as if that was **the** indefensible issue - someone else other than the police profiting from sexual depravity and sadism....

Another malayalam speaking fellow announcing in cricket commentary style that this new paandi was from the Crime Branch, like Nagaraja. Possibly this is the same homosexual sadist that was targeting the couple in flat 111 - the duo that kept trying to call "press conferences". Like Ashok and Bindu Menon from the flat 132 below me, and the couple Vinay and his "i'm a doctor" wife from 121, these flat owners have disappeared - I have not seen them at the building in perhaps a year now - there are only 8 flats in this building.

A few minutes later, an adult Menon female below me spiking the radiation, doing the paandi routine "I've lost my husband..."

Some time later in the night, a slow cycling pressure sensation, more like sound, but very low frequency - could feel it on my body and in my ears - the normal radiation targeting my head as usual, I could feel a focused beam and an aching sensation on the side of my head lying on the pillow. Outside the american "reporter" degenerate theatrically confirming the police had been given instructions to kill me etc.

Now 10am in my shifted study, Meghana Menon below me and the radiation is already high.

2008 12 3 Wed

Last night, the Menons periodically spiking the radiation as I lay in bed. At one point their phone rang, then a few minutes later, Ravi Menon targeting my head, not the usual heat and prickling skin sensation - it was a painful sensation, a beam focused inside my skull - forcing me to get up and shout out. Nagaraja was outside on the road, immediately shouting that he had not given them instructions to focus the beam inside. He sounded quite pleased with himself.

Some paandi police arrived this morning in the Menons flat - heard some metallic clanging sounds, macho talk. The perverts left the Menons with the portable torture equipment.

Now 1:55pm, Ravi Menon targeting me in the abdomen - heat and burning cramping sensation internally.

6:20pm, Meghana Menon below me increasing the radiation.

2008 12 2 Tue

Meghana Menon targeting me most of last night, she and her uncle taking shifts on

the sadism routine.

The paandis organizing their nautanki characters today to stand on the road and do some drama with Nimp, Satan jr. and the paandi cops.

I went out this morning for groceries, at the Fabmart store on Tippusundara road. A kannada speaking couple discussing me - the husband ridiculing the police. Within a couple of minutes a familiar looking fellow in plainclothes, medium height, pencil moustache came in to look at the guy, then went to speak to the manager. Later saw him at the checkout queue - he had a huge pile of Sodexo type coupons - 'meal pass' or something similar on the face - that the checkout girl was counting - she totaled it as Rs2435 - which he used to pay for some items and then left. I suspect this is one of the paandi cops - his face looks familiar.

3:10pm in my study, very high generalized radiation - Monish Das and the Menons simultaneously targeting my head and upper body.

I spent the rest of the day shifting my computer and study table from my study to the spare bedroom overlooking Nagavarapalya Main road. This does not have a common wall with Monish Das's flat, so at least I am spared Satan jr's patented "sandwich" radiation from below and the side.

2008 12 1 Mon

Last night, while the Menons targeted me, a paandi police officer entertaining the neighbourhood with his "good guy" drama - the whole point being apparently to demonstrate to the neighbourhood that it was a terrible case of injustice, everyone needed to resign and/or be jailed, but what to do, only dogs here, his superiors were not allowing a case to be registered etc.

This morning I read an online report on the Daily News & Analysis (DNA) website about corruption in the RAW agency. I emailed the editor with a link to my website logs.

Since then, high radiation all day long in my study - both Monish Das and the Menons simultaneously targeting me - Monish moving into place quietly after I shouted at the Menons - he has been targeting me since morning without moving from his position. Now 3:15pm, Ravi Menon targeting me from below, MD targeting my head from the side.

The paandis outside doing their usual degenerate freak show on the street with Satan jr., the Nimp, Nagaraja, "kumaresan" et al.

7pm - after an unusual dip in the radiation lasting about half an hour or so, Meghan Menon is back at it again - experimenting with burst of radiation as I sit in my study to get me to shout out.

9:35pm, radiation increasing in my study - the Menons getting ready for their nightly sadism festivities.

2008 11 30 Sun

Again, almost no sleep last night, the Menon paandis systematically torturing me - moving the beam up and down my body to enjoy the reaction as I shouted out. In the middle of the night - the menons being called on the building intercom from the basement by the police perverts giving them instructions. Immediately after that, the radiation increased and held steady even as I shouted out - a few minutes after that, the police paandi who had arrived did his standard nautanki act "nammade joli pono?" and threatening others. Satan jr. and some foreign paandis doing another

routine ...

As soon as I got into my study this morning, Monish Das and Meghana Menon immediately setting up position, targeting me with radiation immediately.

Some police fellows did a drive by loudspeaker shouting on NM road this morning - they got the attention they were craving - heard someone yell at them at they were the "Marwari de penne". A few minutes after they drove by, very high radiation from the Menons flat. Then heard a small girl from Menons flat say "They told you to stop!" Heard Ravi Menon respond "They said I cannot control my impulses" - he appeared to be very happy with this perceived absolution and his escorted return to the flat. **The Nimhans psychopath department doing what they do best ... converting peeping tom perverts into depraved sadistic and murderous monsters.**

3:20pm, extreme radiation in my study - Meghana Menon targeting me - each time I shouted out, she gave me another burst of high radiation. This has continued now for about 10 minutes, sporadic bursts of intense radiation to get me to shout out. They appear to be quite satisfied with their situation now - from the pattern that has developed over the past few years, its obvious the police have determined that the pervs have got their cyclic quota of "punishment" and have paid up the appropriate bribe installments, and that there are no witnesses to spoil the peepshow and sadism festivities. All the dramatic nautanki of the police over the past week or so to mark the peak of the cycle - now the pervs will be left undisturbed with occasional phone calls and visits to see how they are getting along. Then if there are any additional enquiries from interested parties, they will start the "pressure" on the perverts to cough up more bribes "any moment now", confident "ellarakam kootam ponooo" and indignant counterpoint "nammakye kootam pono?" etc.

What an open air toilet of a country ... a running display of how our government officers function in real life... openly corrupt and sexually perverted sadist degenerates parading on the street, herded and choreographed to perform their acts of perversion ... wealthy depraved psychopaths flaunting their letters of reference from the "Home Ministry" and "Defence Ministry" ...

8:40pm, just a few minutes ago, Nagaraja and a female Nimhans psychopath putting on a show in NM road. After they were done, Ravi Menon targeting me - heat and cramping sensation in my abdomen - the depraved bastard followed me to the kitchen and back right under me - now he still has me targeted, focusing the beam on my head.

9:35pm, Ravi Menon below me, periodically increasing the radiation enough to make me shout out - just systematic enjoyment.

10:50pm, continued high and steady radiation in my study, the Menon paandis just waiting for me to go to bed.

2008 11 29 Sat

The Menon paandis had targeted me for a while yesterday night - it started with Meghana Menon, who had climbed up on something below to get as close as possible to my head as I lay in bed. Heard her climb down muttering to herself after I shouted out. Then Ravi Menon took over- focusing on my lower abdomen for a while, then my head. After I responded with more shouting, the standard police nautanki outside, whispered strategy sessions being conducted below me in the Menons flat - with the radiation kept on all the time.

After a while, the filthy depraved "ammoma" - the head of this psychopathic family got right under me with her signature blast of extreme radiation - skin on my entire body prickling, and i heard Meghana Menon who was on the other side of the flat actually saying "Tell her to stop, she will kill him".

The radiation continued all night, while the police and north indian paandis did

their usual nautanki outside. "Tumhaara laash milega!" etc. They really do enjoy their time in the "limelight" - I suspect it is not just the bribes and opportunistic pornographic voyeurism, these pervert govt. officers really relish the attention they get from associating themselves with this situation - wealthy criminals and sexual degenerates, foreigners with sophisticated surveillance and torture devices, authorization "parchis" from the Home Ministry/Defence Ministry/US Attorney General/Secret Service etc. etc.

Now 11:35am, in my study - the radiation on as usual.

12:15pm, an adult female Menon has been following me around the flat, very high radiation - skin on my neck and back itching and prickling all the time.

2:50pm, the police nautanki on the street picking up and as usual, the neighbour paandis simultaneously increasing the radiation. Meghana Menon below me as well as the adult female Menon (the 'ammoma') targeting me - following me around the flat to keep me continuously targeted. After I typed this, Monish Das stealthily moved into position behind the right wall of my study, he is now targeting me as well. Now very high radiation from both of the paandi neighbours.

3:10pm, Monish Das targeting my head with focused radiation - he is right behind the wall a few feet away from me.

4:10pm, Meghana Menon glued under me - was targeted even as I sat on the bathroom commode - then immediately after taking a shower and returning to my study, extreme radiation - Monish Das was waiting behind the right wall patiently. The usual police-nimhans nautanki drama "ellarakam kootam ponoo" on the street coinciding with the neighbour paandis increased sadism and depravity.

6:25pm, Monish Das still in position behind the wall, periodically increasing the radiation - skin on my hands prickling and itching.

7:30pm, a massive burst of radiation from the Menons - skin prickling over entire upper body. It was Meghana Menon below me.

9:50am, a massive burst of radiation from the Menons flat. 10:05pm - radiation slowly increasing again.

2008 11 28 Fri

After I updated my website and the NHRC with my logs yesterday, the paandis outside in full drama mode. Meghana Menon downstairs furious "What are they doing ? Why haven't they arrested him?" So all the woe is us drama over the past couple of days culminating in the little killer degenerate angry that her victim was not arrested. The govt. paandi nautanki was topped off by some scumbag arriving to proudly announce that indeed all the paandis were Malayalis - then left quickly. Radiation continued all night, the little whore and Ravi Menon targeting me.

Today I drove to Sadar Patrapa road and back - followed all the way by multiple vehicles that began to target me with the radiation equipment on Richmond Road and continued sporadically for at least half an hour. Some were luxury vehicles - the last one I saw behind me on MG road on my return journey, a Honda city.

Now 7:25pm, Meghana Menon intermittently increasing the radiation to get me to shout out. The little whore is still apparently not in a good mood -
