

2008 12 13 Sat

Nimhans and police perverts appear to be getting more and more excited by the 'attention' they are getting as each day passes - happily broadcasting on the street that 'NHRC is investigating', 'This is getting international attention!' - all intended to demonstrate to the neighbourhood that of course they don't need to do anything, 'someone' is doing something right now and all of them are in deep ka-ka and they are thrilled to bits about it - the usual homosexual tragic queen drama.

The police SP that arrives daily to ensure Nagaraja and "kumaresan" are protected in their pervert nautanki appearances - he appears to be very happy with the attention he is getting, often projecting himself front and centre to ensure the neighbourhood knows he is in charge, waiting for someone to shout in disgust at him before he is satisfied.

A new nimhans female pervert arrived last night on NM road to inform the usual nimhans female pervert in attendance "This is just like you to do this" - the second woman responding quite happily "I'm sorry ..."

Again, all of last night, the Menon pervert uncle and niece combo happily and systematically torturing me - playing their part to get me to shout out, then wait for the police and nimhans sex perverts to get closer on the road and begin their dramatic show, then wait for the whole drama to ebb, then half an hour or one hour later, start all over again.

Now 2:35pm, Meghana Menon has been following me around the flat all day periodically boosting the radiation enough to get me to shout out for her satisfaction - talking to herself in a new moaning tone that she has been practicing for the past few days.

2008 12 12 Fri

The Menons keeping the radiation high and sustained through last night. Ravi Menon targeting me with Meghana Menon next to him. At one point I woke up to a focused beam on the back of my head - I must have shouted out as loudly as I could, continuously for about half an hour, accumulating a group of fascinated pervert police and nimhans psychopaths to watch and hear the entertainment - the pervert vampire shift, safe in the darkness. After I'd finished shouting, the pervert Ravi Menon slowly increasing the radiation again, completely unfazed - heard him say in a very aggrieved tone "They're saying i'm sick and can't control my impulses. My life is over" - he stayed right under me, targeting me for the rest of the night.

Now 12:20pm, extremely high burst of radiation from the Menons flat. Heard a male-female voice below me say "nammakye paticho?" - simultaneously the paandi police were out on the road doing their homosexual queen drama. It is likely the grandmother who targeted me - she is usually the one who uses the radiation equipment at full strength and occasionally when I have seen her speak in her zombie mode taking her 'constitutional walks' inside the basement garage, she sounds very much like a male - deep voice.

I had to move out of the way and continue to move as she targeted me in my study. Now 5 minutes later, another Menon appears to have taken over

the radiation sadism duties - the usual radiation level pattern - enough to get me to shout out, then cycling.

12:40pm, my head is still throbbing from the effects of the burst of radiation.

2:55pm, high radiation in my study - Meghana Menon moaning to herself as she kept me targeted all the time even I moved from study, to kitchen to my balcony and back. Nagaraja outside doing his patented routine of "gold medallist super-crack Inspector" - going "nammakye paticho?". I suspect the paandi has delivered some new torture radiation weapons to the Menons this afternoon.

5:05pm, radiation increasing again.

6:40pm, Ravi Menon and Meghana Menon giving me a burst of radiation in my study to get me to shout out.

8pm, a nimhans female psychopath in the room below me giving strategic advice to Ravi Menons wife. She in turn threatening the psychopath, "if you say anything about us..."

8:15pm, radiation now very high, targeting my head - paandi cops outside giving them the OK signal by their paandi nautanki presence on the road.

8:30pm, the radiation climbing - the Menon paandis targeting my abdomen and back.

9:50pm, another burst of radiation from the Menons to coincide with Inspector Nagaraja and his foreign masters parading on Nagavarapalya Main road and bleating as usual.

2008 12 11 Thu

High radiation all through the night, Ravi Menon and Meghana Menon targeting me carefully - I was awake most of the night, trying to sleep with my arms and hands under my head to protect myself from the radiation. Got up late this morning, maybe around 10am.

12:20pm - very high waves of radiation, Meghana Menon playing games for fun. Continued after I shouted out - simultaneously the sex deviants on the road screaming - police and foreigners together.

1:50pm, another wave of high radiation from the Menons.

5:45pm, Meghana Menon waiting to give me another burst of radiation. Compulsive and absolutely fascinated with the reaction to the sadism.

9pm, the Menons below me and playing with the radiation again - focusing on my abdomen, back. Cramping in my abdomen, itching sensation on my back.

2008 12 10 Wed

Both Ravi Menon and Meghana Menon targeting me last night - all through the night slept very little.

Now 2:35pm, high radiation in my study from the Menons flat - shouted out several times, no effect - the paandi below keeping the level up.

4:55pm, I just returned from grocery shopping about half an hour ago, about ten minutes after I sat down in my study, the radiation slowly creeping up - an adult Menon below me.

5:10pm, Meghana Menon playing with the radiation - its slowly going up and down, she's moving around under me - appears to be enjoying herself.

**The Menons, like the other sex degenerates associated with this situation, now seem to be appreciative of their notoriety - their ability to get away with this blatant display of sexual perversion, sadism and peep show voyeurism. It almost appears as if they are now playing to the galleries - wanting me to shout out so that the public can appreciate their "power".**

**7:30pm Meghana Menon again manoeuvring the radiation equipment to get a better angle - targeting my head.**

2008 12 09 Tue

Consistent radiation most of the night yesterday, intended to keep me awake and shouting - Ravi Menon and his niece Meghana Menon both targeting me - very systematic, while the paandi police and nimhans psychopaths and sundry zombie degenerates orchestrated by them wandered around the building moaning about their suffering.

Now 10:10am in my study, already high radiation targeting my chest. Shouting out resulted in slightly higher radiation, it appears to be an adult Menon sadist.

2:50pm, the Menon paandis slowly and systematically increasing the radiation over the past few hours, waiting patiently for me to shout out, then slightly lowering it, then slowly increasing the level again. The foreign sex perverts doing their usual bleating routine on NM road outside.

Afternoon, sitting on the bathroom commode - both Ravi Menon and Meghana Menon right under me making gurgling noises as they watched me... they both seem to be in complete pervert zombie mode today.

7:25pm, another burst of high radiation.

2008 12 08 Mon

Last night woke up to intense radiation targeting my head, the Menon degenerate Ravi and his niece Meghana were waiting for me to fall asleep before focusing the beam on my head and increasing the level - likely intended to do damage rather than "just disturbing" me.

5:55pm, the Menon paandis have been steadily increasing the radiation over the past hour or so in my study. When I shouted out, the radiation was spiked again - when I shouted out again, the depraved pig again boosted the radiation. Outside the police and foreign degenerates in

full flow - Nagaraja going "okkula nyaan parniya?", which is one of his favourite appearing intro lines in the daily homosexual drama queen show...

7:30pm, another sadism festival below - the Menons spiking the radiation to get me to shout out, then boosting it again as soon as I did.

8:30pm, Meghana Menon trying to get my attention "we have proof!" accompanied by small spikes in the radiation.

8:45pm, the Menons increasing the radiation again - they seem to be comfortable at night - undisturbed sadism for at least 12 hours - any irritating visitors to disturb them will only arrive the next morning to be received with their practiced "I'm not doing anything!" "I want my mother..." "I don't know what you're talking about"

2008 12 07 Sun

Sustained high radiation last night - again the Menons getting an intercom phone call and a minute later, Meghana Menon below me spiking the radiation. It appeared to be Nagaraja's work - heard him on the Basith road side of the flat walking away from the building doing his paandi bleating routine - the paandi police are calling them from the security guards desk.

More police paandi distraction nautanki in the morning all done in the street for the neighbourhoods benefit.

Later in the morning as I still lay in bed, heard a couple of nimhans female doctors downstairs doing the usual interrogation nautanki right below me for my benefit "Did you have sexual relations with your niece?" and the psychopath Ravi Menon going "I don't know what you're talking about ..." Meghana Menons sister on the other side of the flat immediately responding "if you did something wrong ..."

The sex degenerates and nimhans paandis were not happy with her unscripted comments.

Drove to Malleswaram to meet a cousin for lunch, followed by the full entourage of foreign and desi sex degenerates with Nagaraja escorting them, again outside broadcasting their deranged running commentary for the benefit of the neighbourhood, while we chatted inside.

5:50pm in my study, the Menons have been slowly and systematically increasing the radiation over the past couple of hours. Ravi Menon on sadism duty right now.

9:35pm, the Menons maintaining the radiation in my study without spiking it, steady itching and prickling of my skin.

2008 12 06 Sat

The police paandis appearing during last night to do their nautanki - the Menons getting calls on the building intercom, the radiation increasing.

**It appears these police paandis are assessed by their superiors solely on their sadistic sexual depravity, cowardice, treachery and ability to**

**outdo each other to be the most attention-getting homosexual drama queen of the night. Public confidence building measures ...**

Now 12:10pm, very purposeful and systematic radiation in my study, Meghana Menon targeting me - very high radiation targeting my neck and head for an extended period of time, the paandi Menons making irritated noises each time I shout out then very deliberately shifting their position and retargeting me.

After i typed this, Ravi Menon in charge of the sadism, he is below and off to the side, keeping the radiation focused on me.

10pm, the Menons have been periodically boosting the radiation this evening in my study, the police paandis out on the road as usual with the american perverts.

2008 12 05 Fri

Last night, the adult female Menon - likely Ravi Menons wife - targeting me in bed.

1:20pm, Meghana Menon in position underneath me - very high radiation targeting my head. I suspect she was out of the flat this morning as the radiation was much lower and there was no activity under me - now its clear the deviant little whore is right below me. The police paandis outside on the road doing their homosexual bleating routine as usual.

This afternoon as I was in the basement garage, saw the Total Environment plumber who had implemented the poisoning apparatus for the Menons. This time i had my new cellphone with a good camera - took a snap of him in the basement. Immediate response outside on NM road - Cherrapunji was there, saying that it was not the plumbers fault "saare, avaru marwari de joli cheyidu...", and that the "marwaris" had settled this by paying a bribe "avaru paisa kodthu".

I drove to Spencers for my usual grocery shopping. As I was standing in the aisle, a couple of fellows came by - perhaps in late 20s - looked like north indians - one carrying a camera with him. They came behind me in the aisle - as I stared at them, they made a show of looking at the shelves carrying cooking oil and taking a photo of one of them. One of the store employees called a manager, they then did a routine about how they were in advertising (that looked possible, given their casual clothes, hairstyle and general unkempt look), that they were looking at how their product was stacked on the shelves etc. - manager and the other store employees not buying the explanation - asked them to go up and meet the head.

**It seems Ravi Menon is back in the flat below me today - i guess the requisite ticket price must have been paid for his latest sexual tryst with his minor niece Meghana.**

When I got back to the flat and was putting my groceries away, got a burst of radiation to remind me that they were both back in action. Now in my study, the radiation is targeting my head.

8:40pm, the Menon uncle-niece combo targeting me carefully for the past few hours in my study. Each time I shouted out, the duo muttering below

me, cherrapunji outside squealing as well. The Menon paandis are being very systematic, the radiation slowly climbing all the time.

2008 12 04 Thu

8pm, high spikes of radiation in my study. When I shouted out, the response was a rapping noise on the ceiling, I went out but when I went up I found the door to the terrace locked. If the paandis haven't locked the terrace door themselves, the only other way up would be with a ladder from Monish Das's balcony.

Just after I returned to my flat and typed this, a new type of radiation equipment is being used to target me - pressure and pain in my head - cycling sensation.

9:20pm, high radiation targetting my abdomen.
