

2008 Dec 24 Wed

Last night when I went to bed, immediate radiation torture from Ravi Menon. After I shouted out, something strange happened - the depraved psychopath left the room under me and a minute later I heard children screaming from the other end of the building - apparently Ravi Menon and his niece were targeting the family in 122, below their flat. After about half an hour of this, the depraved animal came back to his position below me - his wife doing some scampering back and forth to supervise their bizarre activities.

The homosexual sadist then spent the entire night right under me, playing the radiation up and down my body - I woke up to find my lower body and genitals being targeted, the animal was right under me obviously very stimulated. Again, the Menons getting a call on their building intercom phone in the early am during a lull in the radiation cycle.

For the past few nights, I have heard someone breathing heavily as if in deep sleep, on the building terrace close to the balcony opening on to my bedroom. I'd gone up once during the night and found the staircase door to the terrace locked. Yesterday, the fellow who was up there was doing his heavy breathing act even as I shouted at the top of my voice for several minutes just a few metres away from him. The previous nights too, the heavy dramatic breathing had not stopped when I shouted.

But when I woke up last night with Ravi Menon targeting my genitals, I found the terrace paandi was awake too - heard him walk off saying "Rinpoche, Rinpoche...", he was mimicking a tv ad that has been playing for the past few weeks, with tibetan monks paying homage to a light bulb. Completely bizarre ...

This morning, the usual breathless excitement with nimhans perverts, police perverts and "senior government officer" perverts all competing with each other in the usual street nautanki. Activity below, with the Menons breathlessly announcing their individual imminent arrests - but as always, one of them on constant sadism duty.

Radiation as usual as soon as I sat down in my study - Meghana Menon below me. Then when I went to the bathroom, the little depraved whore boosting the radiation as I sat on the commode.

2008 Dec 22 Mon

Ravi Menon and Meghana Menon taking turns on sadism duty last night - again waiting for me to fall asleep before targeting my head with the radiation - I was waking up to intense radiation - its now 1:45pm and I have had a persistent headache since waking up this morning.

Again during the middle of the night - as I lay awake after a burst of radiation, Meghana Menon had left the room below and went to the other side of the flat. Then their building intercom phone rang, and sure enough, after a few minutes, the little depraved psychopath was again below me - could hear her aunt (Ravi Menons wife) encouraging her to target me. Outside a nimhans female psychopath watching the festivities.

Early this morning, the perverts outside roaming everywhere around the building - **"four diamond nuts", the north indian male prostitute going "he's a famous rajasthani" and "the rajasthani caught you!"**, satan jr doing his ranting and running routine... all of them thoroughly stimulated.

As soon as I got into my study this morning, Ravi Menon on sadism duty - being targeted - still have a dull headache now at 1:50pm

8:15pm, radiation in my study climbing over the past few hours - the Menons are being very deliberate. Outside the foreign perverts going "poor Hari..." walking up and down the road.

9pm, continued high radiation - I have been shouting out continuously for about 5 minutes now, the Menons keeping the radiation at the same level, targeting my upper body and head.

2008 Dec 21 Sun

The Menons targeting me immediately with their new addition to their collection of radiation torture equipment when I went to bed - happy to hear me shouting out several times, before they finally decreased the radiation a bit.

They again waited for me to fall asleep before targeting my head with concentrated radiation - Meghana Menon on the radiation damage duty again. Woke up a couple of times in the night, again in the morning got another burst of radiation.

1:15pm, Ravi Menon giving me a burst of intense radiation in my study - shouted out and he gave me another burst. The police perverts are outside on NM road.

1:50pm, another burst of intense radiation targeting my upper body.

7:40pm, Ravi Menon giving me a burst of radiation to get me to shout out. He and his niece Meghana Menon have been periodically spiking the radiation for the past few hours.

8:45pm, radiation in my study climbing again.

2008 Dec 20 Sat

Same pattern of radiation as previous nights, Ravi Menon and Meghana Menon keeping the radiation high, but waiting for me to fall asleep before concentrating the radiation - when I woke up with the beam targeting my skull, I found it was Ravi Menon - he had climbed up on something below me to get as close as possible - making satisfied grunts when I shouted out, after about a minute climbing down - they then made their usual aggrieved noises, a few minutes later, their building intercom phone rang - the usual pervert sadism cycle - radiation continued all night.

Got an sms from a relative in the morning - joke about how to catch a tiger - get Kerala police to torture a cat until it confessed to being a tiger ... immediately after I read it the police paandis outside - Inspector Nagaraja puffing himself outside on the road to loudly announce that he was not "Kerala cadre" - the degenerate homosexual drama queens will trigger on any stimulus to perform some nautanki.

Got a call on my landline late in the morning - a paandi woman speaking in Kannada, ignoring my reply in English, continuing in Kannada to finish her pre planned script - a venomous snake with a syrupy voice - something about 'saare kelasiya' and 'pa-tra'.

1:30pm, high burst of radiation in my study, skin prickling all over upper body. After I shouted out, Meghana Menon increased the radiation. After I shouted out again, the little psychopath monster increased the radiation again - as I type this, she is playing with the radiation increasing it in waves. Outside the pervert police

Nagaraja and his sidekicks instantly bleating to let her know its OK, they are there.

Went to Nandi Hills with a couple of paragliding acquaintances - arrived around 4pm - the hillside was crawling with perverts competing with each other to get my attention. One north indian at the parking ticket counter showing off his expensive camera with a long telephoto lens - brandishing it for me to see, then when I finally noticed him, turning to his male companion and going in an aggrieved tone, "ham paandi hain?"

More on the hillside at the launch slope - perverts with their families. We never did fly and as we returned to my parked vehicle and then drove off, more of the zombie perverts hanging around "kammi illa?" etc. Inspector Nagaraja had arrived to escort the perverts.

When I returned home, as I was coming up in the lift, the pervert replacement couple for Rahul in flat 111 trying to get my attention - woman on the Menons floor speaking to Ravi Menons wife just outside on the stair landing - telling her very excitedly about their trip to Nandi, giving her a full report, apparently sexually stimulated by her exciting adventure to watch me.

Late at night in my study, the Menons targeting me with new torture radiation equipment, I had a headache and nauseous sensation. Meghana Menon excited by my reaction to the new torture reaction, as I shifted my position and shouted out.

The SP of police in charge of neighbourhood intimidation was immediately present on the street after my return home to loudly broadcast his status of having been complained about by yet another unidentified resident, with other paandi police and malayali "reporters" mournfully confirming so many complaints against the police, no need to do anything.

2008 Dec 19 Fri

Woke up last night choking and hiccuping with intense radiation targeting my upper body and head, Meghana Menon below me was targeting me.

After I'd shouted out for a while, the Menons got a phone call - Meghana Menon continued to be on the prowl below me, muttering to herself - radiation continued.

Now 4:10pm, just returned from Spencers supermarket on 80ft road, JB Nagar. Pairs of homosexual paandis arriving to get in position in front of me, talking to each other, "kammi illa ?" etc. There were three of these homosexual pervert pairs by the time I got to the checkout line ... I was being targeted with radiation as well - I suspect the perverts were in the appliances department above the supermarket level.

As soon as I got back into my study, Menons setting up - intense radiation already.

5:55pm, Menons on a regular radiation cycle - now targeting my upper body and abdomen - cramping sensation, and my head separately targeted - itching, heat sensation.

The police perverts doing their regular motorcycle run up and down Nagavarapalya Main road to ensure the Menons continue their sadism - they spike the radiation whenever the police arrive on the scene and set up their street nautanki.

7:50pm the radiation climbing again in my study.

2008 Dec 18 Thu

An immediate burst of radiation when I went to bed, then after they got the satisfaction of making me shout out - radiation settled down, the Menon uncle-niece sex

deviant combo were waiting for me to go to sleep before waking me up again with a spike of radiation.

This morning 10am, as soon as I got into my study, radiation burst to make my skin prickle. When I shouted out a few times, the Menon paandis decreased the radiation - there were no pervert police outside to immediately respond to my shouting - they take their cue from the presence of the police sex deviants Nagaraja, "Kumaresan" and their SP.

3:20pm, the Menon paandis have been steadily increasing the radiation for the past couple of hours. Angrily muttering below me as I shouted out - and sure enough, the police perverts are in position outside on NM road. Its Meghana Menon on sadism duty right now.

2008 Dec 17 Wed

Was awake most of last night, Ravi Menon and his niece Meghana staying awake together to keep me targeted with radiation. At one point, they were having sex below me - Ravi Menon saying "He's having sex with children!" even as they were at it.

After they were done, the little whore got immediately to work to focus the beam on different parts of my body. A few minutes later, their building intercom phone rang for nearly half a minute. The pervert police and nimhans psychopaths were outside the building as usual to monitor the festivities.

Now 8:40pm, the radiation in my study has been increasing over the past few hours.

9:35pm, the radiation now even higher, an adult Menon has been targeting me - very slowly increasing the radiation hour by hour. Outside, the police perverts and nimhans psychopaths are here for their nightly perversion.

Meghana Menon now targeting me - very casual - spiking the radiation to get me to shout out, then targeting another part of my body, increasing the radiation again - almost as if she was bored.

2008 Dec 16 Tue

4:25pm, sharp bursts of radiation in my study - making skin on my hands and neck prickle.

6:10pm, the Menon sex perverts keeping the radiation constant, just below the threshold I normally shout out - very deliberate and careful. Its Meghana Menon targeting me.

2008 Dec 15 Mon

Last night, the radiation in my bedroom was lower than usual - still on, but I actually woke up in the morning rather than my usual pattern of drifting in and out of sleep all night as Ravi Menon and his niece Meghana Menon take turns waking me up with bursts of radiation.

But that has not lasted long, its now 9:50am, and strong radiation again targeting my face as I sit in my study.

1:35pm, the Menons giving me a burst of high radiation, as the foreign sex deviants outside doing some sort of crowing nautanki. Likely Nagaraja and the other pervert police must have also arrived to give the Menons assurance. Just before that I heard a clunking sound - something in a duct or pipe below and to the right of my seating position.

2:05pm, another burst of extreme radiation from the Menons to coincide with Nagaraja's bleating outside. Very systematic and deliberate.

5:05pm, another burst of radiation from the Menons.

5:35pm, Inspector Nagaraja outside to give encouragement to the Menons - they are boosting the radiation more often now targeting my head.

7:10pm, Ravi Menon boosting the radiation - targeting my upper body very carefully.
