

2008 12 28

Sustained high radiation through the night, **Ravi Menon and Meghana Menon taking a break for another sexual encounter - after they were done, Ravi Menon back under me to retarget me with the radiation.**

2:50pm, another big burst of radiation as I cleaned my kitchen floor and then in the balcony. Just to make sure I was not being targeted from the terrace, I went up and checked - no one there. The Menons continued to target me as I walked through the flat - extremely powerful beam of radiation - my skin prickling and itching, back of my head feeling sore after the burst of radiation.

3pm, Menon paandi keeping me targeted as I write this - they want the satisfaction of seeing themselves described as sadists, pedophiles etc. - any sort of attention now is welcomed.

Shortly before the burst of radiation, the street perverts - Nagaraja, "Kumaresan", the SP, the foreign perverts - satan jr. and the nimp giving a full parade of names "They're talking to nesses wadia" and the police happily going "Tata de pere cheetha aakiyo?" "they're talking to the Indian ambassador" and so on and so forth - the group of sex deviants really enjoying themselves.

Like yesterday, the "woe is us", "we are all going to jail" crescendo was a signal for the Menon perverts to give me a few bursts of radiation as soon as their script ended - their diversion nautanki.

2008 12 27

Massive bursts of radiation in my flat at 8:30pm, from the Menons flat - first in my study, then when I moved to the kitchen - lots of activity in the Menons flat, the police paandis screaming as usual on the main road. I shouted out at the top of my voice several times - opening my front door. Went to my kitchen balcony and checked the Menons master bedroom below my study - there was a light inside but very dim.

A few minutes later, after the third burst of radiation as I was in my kitchen, I heard some activity down below - Menons front door opening. Opened my front door and went to the stair landing, saw the lift door closing on the 3rd floor, two males inside. Went back into my flat to my bedroom balcony overlooking the building entrance and waited. The two fellows - medium height, well dressed - possibly in their 40s, leaving the building and walking towards my right. Security guard at my building quite nonchalant, did not challenge them - the two sadists walked past him and another fellow on their way out.

8:50pm, Meghana Menon boosting the radiation below me now. 9pm, another burst of radiation.

10:10pm, a massive burst of radiation in my study from the Menons flat, skin all over my upper body and head prickling with intense heat and pain. When I shouted out - another huge spike, this was repeated thrice. The police perverts out on the road as usual to monitor the sadism festivities.

2008 12 26

The Total Environment building manager Prakash came by this morning to deliver the maintenance bill - I refused to take it, telling him I was not going to pay a maintenance cost to %^!& poisoners. Apparently the scumbag had just threatened the Menons below if they spoke to me about the custom plumbing constructed in their flat to poison me through the water supply - the Menons were still on the stair landing "Hari ke par-ayanda?" as Prakash spoke to me.

The TE staff had been lying low for a few months, but yesterday, the fellow Prakash parked his motorcycle in my garage space - that was something they used to do regularly until about a year ago - using my garage space for storage, parking their two-wheelers etc. Apparently to provoke me so they could get evidence of how "angry" I was. A bizarre country ...

Total Environment must have paid a fresh bribe to the police - the paandis appear to be rather relaxed now after the crescendo of "imminent arrests" happening over the past few weeks - pressure for another healthy bribe instalment - in this sex degenerate mafia's game.

Radiation was lower today than normal - no spikes of radiation to get me to shout out. But its now 9:20pm, and radiation increasing in my study, the foreign paandis outside now doing their "nothing is happening to us, ha ha" routine on the road. Inspector Nagaraja and his sidekick with them as usual. The Menons as usual playing the sadism game as per the directions from the perts outside - very deliberate sadism.

10:30pm in my study, radiation level consistently high. The Menons are certainly cold-blooded and very deliberate sadists.

2008 12 25

Ravi Menon's wife and Meghana Menon in charge of the sadism last night, a different radiation pattern - each time I was on the verge of dozing off, she would slowly increase the radiation - this went on most of the night - she appeared to be as fascinated with her voyeurism and torture toys, like the others in this psychotic Menon joint family.

5:20pm, intense radiation in my study from the Menons below, the police perts shrieking outside on the road - motorcycle cruising up and down Nagavarapalya road to ensure the Menons are comfortable. Skin prickling all over upper body, arms, neck and hands. I shouted out several times, the radiation came in waves - the Menon perts below playing the beam over my body. Satan jr and the Nimp enjoying themselves outside - the perts and their police escorts are playing out some deranged digression nautanki on the road while the Menons get their sadism fix.

Updated CPGRAMS-darpg@nic.in with an email giving them the website address where I update my logs at www.pixelproc.net/log.html. (The original complaint was submitted online in June 2008 and I received the acknowledgement reference number DEPOJ/E/2008/00089)

5:40pm, the radiation creeping up again. High heat sensation on my body, my face, thighs prickling.

6:15pm, very high radiation in my study - blanketing my upper body and head, as soon as I sat down - so it must have been left on targeting the area. Suspect the Menons have some of the radiation equipment in a vertical duct in the wall between my study and the bathroom - have heard some clunking sounds from that area and there is intense radiation from the below and to the right of my seat in my study.

2008 12 24

Updated my website and the NHRC this morning.

6:55pm, the Menons have started increasing the radiation in my study.

Different radiation pattern now - it appears Ravi Menons wife is now supervising the sadism rituals.

Heard Ravi Menons daughter below me talking about her parents "Mama's gone mad" and "They just want to watch him and hurt him.."

9:25pm, radiation increasing again - its the depraved whore downstairs. The Menon women psychopaths. Cold-blooded compulsive sadists and sex deviants.
