Last night, usual radiation pattern by Ravi Menon and Meghana Menon - all through the night, waiting for me to fall asleep, then slowly increasing the radiation. Woke up at one point to shift my body to avoid the radiation - enjoyed about a minute of a cool sensation, and then the Menons phone rang - not their building intercom phone. And sure enough, after about another minute, the Menons refocused the radiation on my body. It must have been Nagaraja or his sidekick.

5:25pm, thumping sounds on my ceiling just above my study - it went on for about 5-10 minutes. Sounded like an adult and a child up on the terrace. I went upstairs and found the door to the terrace locked !! Just after I returned to my study and typed this, high radiation in my study.

5:35pm, the police perverts Inspector Nagaraja and his sidekicks are in place on the road outside. The Menon perverts have started their regular cycles of radiation boosting to make me shout out.

8pm, the police perverts outside bleating on the road, and Ravi Menon below me promptly increasing the radiation.

**8:40pm, radiation up again from the Menons - I shouted out a couple of times, then a very uncomfortable sensation that has continued for the past few minutes - my heart beating fast and irregularly. The Menons gave me another burst of radiation after I typed this - they appear to be enjoying themselves now. Another burst of radiation just now.**

Updated my website log and sent an email to the NHRC at 3:20pm, now sustained high radiation from the Menons and the foreign sex deviants parading on the main road going "internet is crazy!" etc.

The police and nimhans psychopaths are milking every last rupee, dollar, free coupon, business class ticket, foreign holiday they can get from the perverts. **This is manna from heaven for our incredible india govt officers - an alliance with wealthy sex degenerates to target indian citizens.**

3:40pm, the Menon sadists below me are carefully cycling the radiation - the pervert below me responding to activity on the road outside - when the sex perverts outside fall silent, the Menon sex deviant decreasing the radiation, when they start up their bleating routine on the road, the sex deviant below me increasing the radiation again.

7pm, Meghana Menon below me, increasing the radiation. Muttering "i'm not doing anything!"

8:05pm, another burst of extreme radiation - and it did not come back low - now still high, after I shouted a couple of times as loudly as I could. Meghana Menon again - she seems to have climbed up on something below to get closer.

8:30pm, still Meghana Menon on sadism duty - she's keeping the radiation high, muttering whenever I shout out "we have proof!" etc.

8:50pm, police pervert cruising on motorcycle just outside on the main road near my building, a couple of minutes later, Meghana Menon increasing the radiation in my study.
