The same routine of sadism last night, the Menon sadists taking it in turns to visit the room below me - waiting patiently until I was just about to doze off, then increasing the radiation slowly until I shouted out - then settling back again. This went on all night - Ravi Menon, Meghana Menon with Ravi Menons wife doing her usual supervisory activity. **Nagaraja outside enjoying himself, telling everyone that Meghana Menon was the one stealing my mail - commenting that she had done this at least 5 times. Ravi Menons wife below immediately holding a strategic conference with her husband and the little devil - the girl telling her that she hadn't kept the letters but had thrown them away...**

2:50pm, waves of extremely high radiation as I stood in my kitchen and then when I moved back to my study. It was one of the Menon sadist maggots, no response to my shouting out as loudly as I could - they were just playing the beam over my body. After a minute or so of this, heard Meghana Menon doing her routine "we have proof!".

9:40pm, radiation picking up - Menons targeting my head as I sit in my study.

2009 01 08 Thu

High radiation all through last night, I was shouting out as loudly as I could every half an hour or so all night. The Menons quite unconcerned, periodically one of the sadist trio - Ravi Menon, his wife, and Meghana Menon - would walk into the room below me and spike the radiation to get me to shout.

Now 9:15pm, very high radiation in my study, Meghana Menon and her uncle below me. Muttering to themselves to get themselves into the proper mood for the nights sadism.

2009 01 07 Wed

The Menons periodically waking me last night - boosting the radiation about once every half an hour to an hour to get me to shout out. Woke up feeling fatigued - two nights of this. They were very systematic about the radiation cycles - taking turns - Ravi Menon, his wife and Meghana Menon.

Today, the radiation was very deliberately kept just below my usual shouting threshold - continuous and steady, but now its 10:30pm in my study, and they have got their sadism bloodlust again - the radiation peaking, the perverts outside on the road all excited.

2009 01 06 Tue

Almost no sleep last night, various members of the Menon family wandering around under me, periodically boosting the radiation to get me to shout out.

2pm. High radiation in my study since I got in this morning. Both Ravi Menon and Meghana Menon on radiation torture duty - the little whore following me around to keep me constantly targeted all the time.

2009 01 05 Mon

Usual radiation pattern last night, Menons arriving periodically below me to adjust the radiation. The Menons intercom phone ringing in the middle of the night. Nagaraja outside all night squawling and bleating in his usual routine.

Now 5:35pm, extremely high radiation bursts from Menons flat - Meghana Menon below me.

10:20pm, I was on the phone talking to a friend and the Menons started to increase the radiation - targeting my upper body and neck - skin prickling and itching ... even as I type this, the little depraved whore downstairs is giving me another burst of radiation. Uncle and niece playing sadist tag team - one mutters and leaves the room, the other takes over. Very much practiced and deliberate.

Went to Nandi Hills in afternoon - hillside was crawling with the sex maggots - all excited at the prospect of seeing me flying. **As I sat with my glider on the launch site, I got a burst of radiation in the back from someone at the wall behind the launch slope.** The sex maggot police officers were there to escort the perverts - Nagaraja was in his element, scurrying to and fro, the marwari pervert threatening everyone's lives loudly - they were trying to get as much attention as they could. Of course all of this because the Nandi Hills police station was just a couple of hundred metres away - the sex maggots feeling quite safe.

Nagaraja had brought the Menon family maggots to the launch - Meghana Menon doing her routine, "I didn't do anything!". Bystanders actually commenting about the family "Woh unke ghar ke neeche hain", and about her having sex with her father and uncle.

**I was targeted with radiation as I setup my wing. Trying to clear my lines on the slope, I could not find my front riser - confused.**

I actually did fly, and as I was in the air another degenerate shouting from the top "gaandu!" and the police perverts all besides themselves in excitement.

**I was targeted while flying as well - on one occasion as I flew low past the launch slope, I found myself going blank. Wondering why I had not yet reached the launch slope and seen the other pilots waiting there. When I turned around, I found I had already crossed it.**

When I landed, a group of north indian pervert males came running to the landing field - a reception committee of more excited peep show perverts.

I got back home to my flat around 9:30pm, a couple of minutes later, a group of north indian couples on the road - the sex maggot neighbouring residents that have been installed here - loudly commenting about my flight - apparently the whole group had travelled to Nandi Hills to watch me.

2009 01 02 Fri

The Menons increasing the radiation through the course of the day. Now 9:50pm and Ravi Menon + Meghana Menon are now targeting me in my study - abdomen cramping, heat and pressure sensation. Outside Inspector Nagaraja squawling to give them encouragement.

10pm, radiation increased again, after I typed this, massive burst of radiation - the perverts out stalking the roads to do their diversion nautanki while the Menon psychopaths get busy. Its Ravi Menon right now targeting me from below in my study - continuous bursts of high radiation even as I type right now ...

Went to Nandi Hills with a couple of local paraglider pilots - arrived around 4:30pm - the perverts with their police escorts right behind us. They were targeting me with the radiation as I checked the wind at the north launch site - the other pilots were about 10metres away trying to get my attention as I walked back up and I could not recognize either for several seconds. Inspector Nagaraja's sidekick immediately bleating - he was up on the road - "Nyaan saare ke helpiyanaite vannu..."

2008 12 31

I was awake almost all of last night - the Menons keeping the radiation high. Middle of night, the police perverts calling the Menons on the building intercom phone - it was Inspector Nagaraja. This was followed by senior police perverts coming to "reprimand" him while the Menons got busy increasing the radiation. The usual diversion nautanki.

Now 9:20pm, the radiation in my study has been getting stronger over the past half an hour or so. Targeting my abdomen and upper body.

10:15pm, very high radiation in my study again, the Menons have been slowly increasing it. Nagaraja is bleating outside on the road with the foreign sex deviants, to create the usual diversion nautanki with the other police perverts.

Huge burst of radiation at 10:30pm in my study - Ravi Menon and Meghana Menon - the police paandis screaming outside to divert attention.

2008 12 30

5:20pm, just got back from grocery shopping, back in my study. Promptly the Menons setting up some sort of radiation targeting my chest - ache in centre of chest, when I shouted out, the degenerates keeping the beam targeted. They appear to be stimulated by yesterdays events.

Updated website and NHRC with my log again today ...

Now 9:50pm, the nimhans and police perverts including Nagarajadoing their nautanki on the street, and its Meghana Menon on sadism duty below me - she's been increasing the radiation over the past 10 minutes slowly to the point where I shout out. The Menons appear to be very happy with the events of the past hour - my updating my website with a log just a day after the previous log after experiencing a fast and irregular heartbeat for several minutes ... it seems to be an achievement for them and the perverts outside on the road.
