

2009 02 14 Sat

Yesterday I had made plans to join a group of PG pilots to drive down to a launch site at Yelagiri. We were supposed to leave early this morning.

The Menon sex deviants Meghana Menon and Ravi Menon kept me awake all last night with periodic bursts of high radiation. The paandis outside raising the volume of their diversion nautanki "Kammanahalli has arrived!".

When I started shouting, Vinay from 121 went out, when he came back, heard him loudly informing the Menons that he had given a complaint against me at the police station, that they had informed him that the inspector was on rounds, he would come by when he returned. Ravi Menon making satisfied noises, someone else telling Meghana Menon not to overdo it, she came right under me and spiked the radiation. Then the usual crescendo of nautanki outside the building, cops arriving to check the neighbourhoods response to this gambit, to threaten the security guard at our building about not saying a word to me - the usual. **Inspector Nagaraja arriving to oversee the torture, someone coming into the Menons flat to install some new equipment - then the radiation level jumped - a very hot and dry burning sensation over my upper body as I lay in bed.**

Unable to sleep, this morning I was too fatigued - did not want to risk the 3 hour drive and then flying in this state, so canceled my trip.

All day long the Menons have been spiking the radiation, the police paandis have been running their nautanki outside on the street, each time I shout out for a few minutes, the paandis organizing drive by honkings and shouting on the street - always keeping the script going. The Nimp shouting about how "all the cases against" me were being "withdrawn", the usual woe is us, "we have two more days!" etc.

2009 02 11 Wed

Woken up this morning around 6am by knocking on my front door. As soon as I was awake, the knocking stopped. Then a minute later, one of the pervert police - likely Nagaraja, walking away from the building - "sughama aayite orange". A few seconds later, Meghana Menon was right under me to spike the radiation.

Now 2:30pm in my study, high spikes of radiation - burning sensation on upper body, Meghana Menon at work. A nimhans paandi had arrived about half an hour or so ago to brief the Menons - full drama session for a minute or so and the paandi (this one was a male) left. After that the radiation has been consistently high.

9:30pm, very high radiation in my study, Meghana Menon at work again, the police paandis outside on the road doing their nautanki to keep them going.

10pm, radiation again rising, Ravi Menon below me now on sadism duty. Nagaraja outside in deranged mode, "Vidarde!"

2009 02 08 Sunday

9:30pm, getting blast of high radiation in my study, from the Menons.

2009 02 06 Friday

9pm, Meghana Menon under me boosting the radiation experimentally to get me to shout out. The perverted Menon family was quieter today - radiation rarely going above discomfort level. The depraved Meghana Menon using some alternative radiation occasionally - focused beam giving me a headache, she kept me targeted even as I walked to the kitchen and back.

2009 02 05 Thursday

Sporadic radiation through the night - always at discomfort level, sometimes boosted. Appeared to be an adult Menon - a different pattern, not Ravi Menons usual homosexual rituals.

Got up this morning, went out on my stair landing to get the newspaper, and found chalked numbers on my front door - like the ones the police have been putting regularly on the doors in our building. There was a smudged one on Monish Das's door as well. I should have taken a snapshot of it - but was pissed off - rubbed it off with my hands. Outside the pervert and police immediately into a crescendo of shrieking and squawling - thoroughly enjoying themselves. Downstairs an adult Menon woman threatening me in Malayalam. Another fellow doing a walk-by drama "yeh gande aadmi ka shikaar kar rahen hain".

12:15pm, Meghana Menon setting up the radiation - very high and constant in my study.

Got a call from an acquaintance in the night - who commented that my mobile phone was "unreachable" most of the time. My phone on Airtel network was right next to me at my desk in my study. This has been the case for a few months now. Calls dropping frequently in mid-call, unable to get through, other people unable to get through to me. And I get frequent smsés about missed calls, even though the phone never rang.

2009 02 04 Wednesday

Constant radiation through last night. Woke up once with my ears burning and itching inside - intense irritation of the ear canal for about 5 minutes. Went to CMH hospital this morning to see an ENT. At the OPD registration I was delayed by a group of women - one promptly asking for my pen and then moving away - held on to it for about 5 minutes busily writing. When I got to the ENT consultation room, found a hospital security guard outside looking uneasy, another weasel - likely a cop in plainclothes, next to him, looking equally uneasy. There was a male inside - maybe in his late twenties, when I was called in. It was obvious he was not a patient from the tone of his voice - he was putting some papers in a briefcase, and the doctor looked angry. The doctor checked me and told me there was no ear infection.

Now 1:35pm in my study, Ravi Menon is intently targeting me - high heat and prickling sensation on my upper chest and neck.

3:15pm, Meghana Menon now giving me bursts of high radiation, my upper back, ear canal itching and burning.

6:40pm, Meghana Menon right under me - responding to the squawling and bawling of the perverts on the road with her own muttering - radiation is constant directed at my upper body - high heat, itching sensation.

2009 02 03 Tuesday

Did not sleep much last night, an adult Menon - maybe Ravi Menons wife, targeting me through the night. Got up this morning feeling fatigued.

6:15pm, Meghana Menon and Ravi Menon targeting me with strong radiation targeted at my upper chest as I tried to get some sleep this afternoon. And now in my study, the paandi family is keeping me targeted even as the street perverts begin their diversion nautanki of accusations, reprimands, insults and woe-is-us bawling and squealing.

Nimhans female paandis visiting the Menons (something about a deadline for them to leave the flat, I have heard this routine at least 4 or 5 times in the past few years). After they left, family get together for strategy discussion - Ravi Menons wife telling the others no problem, just ignore them etc. More of the paandi drama outside after they left - "reporters", other nimhans paandis etc. -

someone shouting that "Krishna" was responsible etc.

8pm, the Menons increasing the radiation again - now very high in my study. The police perverts making regular rounds of the neighbourhood to ensure everyone is entertained while I shout.

9pm, the Menons using a different form of radiation equipment right now. Targeting my chest - sense of constriction and pain in the centre of my chest. Meghana Menon in high spirits tonight - almost as if she is on drugs. The police perverts cruising up and down the neighbourhood on the main road threatening me and encouraging the sadists.

9:15pm, the menons increasing the radiation again - now back to their basic torture equipment - high heat and prickling sensation.

2009 02 02 Monday

Last night an adult Menon female was targeting me with the radiation for a while. Then it was Meghana Menon as usual.

11:30am, Meghana Menon below me targeting me with their new radiation toy - I have a persistent headache now.

The government sex degenerates out on the road doing their night sex deviants drama as usual last night. I can't imagine any mentally stable and intelligent human being would willingly stand in the middle of the road in a residential locality at 1 or 2am in the middle of the night and perform this sort of pompous drama - I wonder if they are on drugs ! What would compel anyone to do this night after night for years on end ?

I am astonished that the Byappanahalli police actually asked me to come to the police station for questioning about my NHRC petition ... the corrupt maggots... "what is the problem, saare?" "it is not clear, some people are following you?"

**A credible response to my letters of complaints since January 2002 would be a written letter**

1. acknowledging the presence of these foreign homosexual sex deviants in India since 1998
2. acknowledging whether they are carrying authentic or forged letters of authorization from US government and/or Indian government officials
3. acknowledging the use of radiation exposure equipment over the past decade
4. acknowledging the police escort of Nagaraja and "Kumaresan" provided to these sex degenerates for monetary and sexual deviant satisfaction
4. acknowledging the opportunistic poisoning and drugging
5. acknowledging that my flat has been custom built to facilitate voyeur pornography, radiation sadism and poisoning
6. acknowledging the opportunistic voyeur pornography of not just myself but anyone within the vicinity at the time and in the area
7. acknowledging the pedophile acts that are continuing to be committed as I write this
8. acknowledging that these public servants have been committing these crimes against an Indian citizen on the behest of foreigners, in the name of the Republic of India, an "independent nation" since 1947.

Lets start from there. Thats after all what I am aware of and I am aware this is the tip of the iceberg - any investigation should then uncover what other crimes these degenerates have committed against me, my family, acquaintances and other Indian citizens. Isn't this what a government is supposed to do in return for the taxes paid to it by the citizens ?
