Ravi Menon and Meghana Menon targeting me with high radiation throughout the night - was shouting out as loudly as I could, a couple of police paandis including Ashwathanarayana were prowling around just outside the apartment building to make their comments as I shouted out.

**Now 11am, the filthy depraved little devil Meghana Menon getting under me to woefully inform me that they were going to the hospital, then a few minutes later the radiation climbed. The uncle-niece combo thoroughly enjoying the attention they are getting in this sex perverts drama.**

The Nimp and Satan jr. now in high energy mode - running around all over the place to inform everyone of their impending doom alternating with cackling at my situation. A couple more American perverts arrived to thoroughly cow the Karnataka police paandis - it was clear who was calling the shots. The Karnataka police unwilling to do more than comment "avarude patti aanu" and allow them to strut around threatening everyone in the neighbourhood "you fuck with the US...".

12:30pm, Meghana Menon is on active sadism duty below me in my study, she is keeping the radiation high and constant. Muttering to herself as I shout out, walking below me as I go to my kitchen and back.

Again last night and early this morning it was apparent that all of the sex degenerates are only too willing to show off their "nyaan rogi aanu", "hum jaanwar hain" roles. They were competing with each other to show that they were really degenerates, waiting for the appropriate response from someone else in the deranged nautanki - "avarude thala potti". Inspector Nagaraja usually takes the lead role when it comes to this - scuttling to and fro in the vicinity of my flat to make some deranged or obscene comment, then waiting for someone to confirm that he was indeed a rogi, then repeating the cycle after about 5-10 minutes.

The Menon sex degenerates also taking part in this spectacle of paandis demonstrating their depravity. Ravi Menon doing the "they're saying i'm insane!" routine.

1:20pm, the radiation in my study is again high, it seems Ravi Menon is now on active sadism duty.

2:40pm, sustained high radiation in my study, Ravi Menon below me keeping my head and upper body targeted.

Last night, the Menons were putting on a sadism show - ensuring that I was shouting out as loudly as I could. Soon enough it became apparent why - they were performing for a new audience of senior cops, nimhans paandis etc. Who proceeded as per the official government policy of loudly discussing my situation on the street - the paandis were loudly telling the neighbourhood that it was Commissioner "Shankar Bidari", who as per the usual paandi protocol was apparently quite ignorant of the situation and just had to be briefed on the road in the night. Full dramatic dialogue - the usual deranged scuttling around by Nagaraja and "kumaresan", support and accusations etc. - they were not particularly bothered by the presence of radiation torture equipment or sadists in the flat below me who were busily using the radiation exposure equipment as they conducted their street nautanki. The Byappanahalli police paandis - including the SHO and Ashwathanarayana, making their presence felt with their deranged threats to anyone who would have the temerity to approach me as a witness. The nautanki ended with the usual top cop ordering everyone in sight to be sent

to the mental hospital for evaluation, to be followed of course by the full set of paandi cast members returning to the scene within five minutes in various compass points around my flat to continue their routine without a script.

The Menons then settled down to the sadism - it appeared Ravi Menons wife was getting into it - spiking the radiation and keeping it high. Then threatening me, "You mention my name ..." - her daughter shouting at her to stop it.

**These sadist psychopaths, voyeurs and pedophiles have 3 minor girls in the flat below me ...**

This morning more visits by Nimhans paandis and cops to the Menons flat. Within a minuter after I heard the conversation end, the radiation spiked, and the Menons were back in business.

Now 8:40pm, the radiation in my study has climbed - now high and constant, the Menons getting set for tonights nautanki.

8:45pm, massive burst of radiation in my study - it was Meghana Menon.

2009 02 16 Monday

5pm, very high radiation now in my study, it appeared Ravi Menon just returned from a jaunt outside their flat and is back to his sadism fetish.

2009 02 15 Sunday

Last night, after I went to bed, the Menon paandis immediately blasting me with high radiation. After I had shouted for about 10 minutes, some commotion downstairs. **Vinay from 121 was talking to Meghana Menon - the pervert was propositioning her right on the stair landing. A few seconds later I heard one of the paandis outside the building shout "avarade kooda kettano?". Then I heard Meghana Menon loudly responding to Ravi Menon "i don't want to!" and Ravi Menon arguing that "he's a good man". Then heard Meghana Menons sister crying downstairs. Then the usual crescendo of paandi nautanki on the road, with nimhans paandis, police paandis, "senior govt. officer" paandis all thoroughly excited. The nimp shouting "he's surrounded by madmen!"** After several minutes of this, all the concerned paandis went back to business as usual, Meghana Menon and Ravi Menon taking turns spiking the radiation to get me to shout out.

**For the past several days, the paandis on the road yelling about "jyothsna" - I'd heard them use this name several times in the past few months, how "jyothsna" was being questioned, "jyothsna" was in trouble etc., and always assumed they were talking about a paandi woman ex-colleague in the Genesis Microchip office. But it now seems that "jyothsna" may be one of the adult female paandis downstairs in the Menons flat.**

Now 7:20pm, Meghana Menon increasing the radiation below me in my study. She really seems to relish the notoriety and her role as the "go-to" sadist - the "poor little victim" who cannot be touched. This morning she was yelling in the stair landing - a general threat that everyone would go to jail - the depraved little monster basically enjoying the power she holds over the other sex deviants. **I read in the Indian papers these days about "consensual sex with a minor" being rape in Indian law, but in practice it appears that when the Karnataka police and government psychiatrists are facilitating pedophile acts, then the "poor little victim" becomes a dangerous tool that they cannot resist playing with.**
