

2009 09 19 Sat

Last night the radiation increased again, Meghana Menon under me to spike the radiation a few times to wake me up and get me to shout out. Did not get much sleep at all.

Now 9pm, just after I typed this, spike in radiation from below. Am driving down to Vagamon in Kerala tomorrow for a week, for a paragliding fly-in. Am sure the entire entourage of sex deviants will be there - usually when they follow me on a trip, they are in full police/security/special agent mode - after a dangerous naxalite/sex deviant/fellow who does not speak your language/giving us all a bad name person. When they return to Bangalore they revert to their bawling "my uncle/aunty/cousin etc. is going to jail" scenario.

2009 09 17 Thu

**This morning a knock on the front door, when I opened it, the Total Environment "landscaping" supervisor and one of his workers there. The supervisor looked like a dog expecting a treat. "I have not seen your garden. Can I see it ?". Said no, closed the door. No idea what it was about, but there were a couple of police paandis outside the building at the time waiting to see my reaction to the duo. "Kumaresan" informing the other police pervert "saare, avaru praantham ..." - he was referring to me, not the TE duo.**

**Totally bizarre. Each of the flats in this building has a balcony lawn, I am on the top floor and with the building layout my "garden" is completely visible from the terrace of the building.**

9:10pm, Meghana Menon and Ravi Menon below me, radiation occasionally spiking.

2009 09 16 Wed

Again last night, similar radiation pattern as the previous night, the Menons keeping me targeted all the time, but below my normal shouting threshold. However, when I got up in the morning, I was very disoriented, that continued through the morning. I had to drive to Palace road for an errand, and it was difficult to drive in traffic, to keep my concentration. At one point on Old Madras road, the paandis got behind me, then switching their headlights on and off behind me to get my attention, then turning off.

In the afternoon around 4:30pm, a south indian woman shrieking on the road just outside my building. She kept it up for a minute or so, I went to my balcony and then could just make her out, accompanied by a couple of other women - part of the paandi group recruited by these perverts. Then as if the tap had been turned off, she shut up and they all walked away.

Now 5:45pm, radiation is sharply up in my study, targeting my head. The Menons synchronizing with the appearance of Nagaraja, Satan jr, and the entourage of sex deviants outside on the road.

8:15pm, radiation in my study high again, the police perverts are in position on the road outside to stimulate the Menons.

2009 09 15 Tue

Meghana Menon and Ravi Menon keeping the radiation sustained through all of last night, but a bit lower than the previous night, lower than my usual shouting threshold.

On Old Madras road around 12:30pm driving towards Indiranagar, a light brown maruti van on my right, an older man driving, a woman sitting on the left. They got my attention as we were approaching the 80ft road junction waiting for the signal. As we approached the 100ft junction where the road was narrow because of Metro works, heard honking right behind me as I slowed down to negotiate the narrow road. Then, right in the junction, the van swerved around to overtake and cut in front of me almost at 45 degrees as there was traffic in front of me and the road divider ahead. If i had not made an emergency brake stop, i would have collided with him. No look back, no gesture of apology, nothing, the two of them kept their faces straight ahead. License plate KA 03 M 7815 or 03 B 7815.

Parked on double road at my usual spot near CMH road, to get my groceries at MK Ahmed dept. store. Noticed a small real estate agents office on double road on the left, first time I had seen it open - a middle aged north indian lady inside.

At the corner of double road and CMH road, next to the fruit stall, three fellows standing there - possibly plainclothes police. More of the paandis. As I walked past, they were doing the routine "Saare, avare pidi-kyinu ..." and then the same guy regretfully telling the others that I had given complaints twice and nobody had done anything.

On my way back with the groceries, the trio of police paandis had gone, but just after I passed the same real estate office, a male voice from inside, "He knows everything ! He knows everything ! Masturbation!" and a small boy questioning the man about who I was...

Now 2:20pm, after I got back from the store, the Menon uncle-niece duo keeping my head targeted with radiation, a headache that developed since I got up this morning has continued.

2009 09 14 Mon

Woke up in the middle of the night, intense radiation - was awake but paralyzed, unable to shout out - could hear myself making some noises. After about 5 minutes, the sensation faded and I was able to shout out. Meghana Menon was below me, the Menons were all awake, and she was practicing her routine "I didn't do anything!". Outside Satan jr. was on the prowl on the road "I'll kill him! " and "fuck you!". Another of the american perverts shouting "he's got bodyguards!".

Now 4:40pm, in my study. Ravi Menon is below me, the radiation increasing already. Outside, Satan jr. and Nagappa are roaming around near the building.

2009 09 13 Sun

8:50pm, in my study, the radiation now very intense - targeting my neck and head - skin itching and burning. The Menons have been steadily increasing the radiation over the past couple of hours. Satan jr. is outside the building on the road doing his "fuck you!" routine.

2009 09 12 Sat

Very intense steady radiation all through last night. Meghana Menon was pretty much on sole sadism duty all the time. No change to the radiation when I shouted out - there was a brief respite in the morning, then she was back to spike the radiation again until I got out of bed. Again get the impression the Total Environment workers have installed enough torture paraphernalia in the Menons flat the last week - particularly below my bedroom. The radiation is now intense and it appears the equipment is mounted very close underneath me, the Menons are simply walking in and out of the room below me to adjust it periodically.

The last few days, it appears the uncle niece duo have been on separate sadism shifts, Ravi Menon active in the day, Meghana Menon very theatrically taking over the nights sadism duties. Outside the sex deviants are in very earnest mode, roaming all around the building taking turns with their prepared routines. Being allowed to perform these sex deviant deranged routines in public appears to be thoroughly satisfying for all these perverts.

2009 09 10 Thu

**Meghana Menon was on sadism duty through all of last night, she was periodically setting up equipment underneath my bedroom then taking up station in an adjoining room to monitor me, coming back into the room only to adjust the equipment when I moved or shouted out. I was awake pretty much all night long with the radiation. Outside on the road, Nagaraja was in his element - staying with his sex deviant patrons all through - could hear him bawling, threatening, squealing periodically with the Nimp and Satan jr.**

**It is clear that the Total Environment workers who have been making such a racket the past week in the Menons flat have custom built more facilities for their perversion. Today in the early am I could hear the Menons down below my bathroom and then sounds that appeared to come from inside my own bathroom. The Menons also appear to have multiple fixed radiation sources installed now underneath my bedroom - targeting my head, abdomen separately and from very close to my body.**

Have to make another trip to a government garbage bin this morning - the BSNL office in Indiranagar, to get my deposit refunded. After disconnecting service on May 14th this year, I was given a slip of paper with a

rubber stamp, and when I enquired about the refund of Rs 3000 STD/ISD deposit the woman at the reception very testily told me that "cheque will be sent to your residence". It is now September 09, and there is no sign of the refund. I suppose there must be a large number of people disconnecting their service as they are moving away from Bangalore - what are the odds that the money stays with BSNL as "unclaimed amount"? Brazen thievery, zero accountability, and these crooks are paid with our taxes...

9:15am, and more hammering downstairs in the Menons flat.

At the BSNL office I was directed to the accounts officer Vadiraj, who made a big show of going through a computer printout, then ringing a buzzer, calling someone and then finally telling me that "normally it does not take this long". I was assured I would get the cheque within a week.

9pm, Meghana Menon about an hour ago, was primed for the nights sadism. She must have been sleeping all day, overly melodramatic activity and muttering below me to let everyone know including myself, that she was up and ready for her sadism rituals.

Now the radiation in my study is high, targeting my upper body, skin itching and prickling all over. Nagaraja is outside in position with the Nimp and Satan jr. to keep the Menons stimulated.

2009 09 09 Wed

Last night woke up several times to find my entire body being targeted with radiation, Meghana Menon was active under me. Some equipment targeting my genitals and abdomen, other equipment targeting my chest and head. The sadist little whore was quite methodical, every time I shouted and moved to avoid the radiation, she would quickly re-adjust the equipment to keep it focused and targeted, muttering a few times in response to my shouting.

Police perverts appearing a few times during the day to threaten the neighbourhood.

8:45pm. Sustained strong radiation in my study for past few hours as the Menons prepare for their nightly sadism rituals.

2009 09 07 Mon

The police and nimhans perverts seem to be thoroughly enjoying themselves for the past few days. The cops showing up to loudly berate Nagaraja and his sidekick "kumaresan" and tell them they are homosexual sex deviants - the duo squealing as usual to ensure the whole neighbourhood is aware of this highly effective police action, the nimhans perverts visiting the neighbours in my building to satisfy their curiosity - they appear to be quite entertained - the radiation sadism pattern completely unchanged. The Menons barely skipping a beat, Meghana Menon occasionally practicing her set routines "we have proof!" "I didn't do anything!" etc.

Now 9pm, Meghana Menon has been under me all day keeping me targeted as I worked in my balcony and study. Radiation is a bit higher now, targeting my head. The Nimp is outside on the road doing his status moans to prime the Menons for the night.

10pm, the police are enthusiastically doing their nautanki outside - very loudly "going after" the paandis - Nagaraja, Kumaresan, the entire set of sex deviants - all of whom are still in their places, the Menons staying in calculated sync, the radiation increasing again to make me shout out so that they can get their fix again.

10:50pm, Ravi Menon under me, radiation sustained and focused on my upper body and head. The paandis have worked themselves up into a higher level of psychopathic sadism - getting the Menons in sync as per the nightly ritual.

2009 09 06 Sun

7:20pm, Meghana Menon underneath me as I sit in my study. Radiation increasing steadily over past half an hour, skin on my neck and upper body burning and itching. Nagaraja outside on the road has started his monologue to prime the Menons sadism rituals for the night.

2009 09 05 Sat

Focused radiation targeting my head through last night. Radiation increased until I shouted, then decreased,

then increased till I shouted, and so on. Soon the usual paandi routine outside. Some paandi woman arriving to give orders "Get your men out of here! You ought to be ashamed of yourselves!".

A knock on my door late this morning, and I found a young paandi couple outside my door. The fellow started up a speech about "Teachers day". I cut them short and asked them how they had got past the security guard at the building. The fellow said he didn't know "whom to approach". A minute later they were on the street, apparently the couple had no interest in proselytizing their teachers day philosophy to anyone else in the building...

Bursts of high radiation in the afternoon and evening - Meghana Menon targeting me to get her sadism fix. Now 9:15pm, the paandi police roaming on the street outside as usual.

2009 09 04 Fri

This morning as I lay in bed, sounds of cupboards being opened, things moved in the Menons flat. The Menons were quite busy - this went on for about 5 minutes below me.

Later in the morning, went out to get groceries. In the basement garage, Vinay Satyan standing next to his car. Informing a woman with him very loudly "He's very smart!" - apparently another mimicking routine. His daughter getting upset, telling the woman to ask him not to do this etc.

At MK Ahmed dept store on CMH and double road in Indiranagar, I was being targeted with intense radiation as I stood in the aisles downstairs, my skin prickling on my back and arms. It was someone in the upper floor of the store. At the checkout, it became clear who it was, a north Indian woman came rushing past, her young daughter trailing behind her. After she was safely out of the store, she started up the paandi routine "He's a nice guy ! What are these people doing ?!" with her daughter contributing "I'm not doing anything ...". One of the MK male employees was trailing them like a dog, offering to carry her bags to her car ...

4:55pm, very high and steadily increasing radiation in my study - extreme heat sensation on my upper body and head. Meghana Menon right under me keeping me targeted. I shouted out a couple of times. Now 5:10pm, the radiation is slightly lower, focused only on my head now. Looks like Ravi Menon has now taken over below me. They are doing a tag team relay - each time I shout, the other one comes over to get his/her sadism fix.

2009 09 03 Thu

Sustained radiation through all of last night, Ravi Menon and Meghana Menon roaming around underneath me all night long to keep my head targeted with the radiation.

Went down in the morning to pick up an airmail package from the security guard in response to his calling me on the intercom. As I walked down past 121, Vinay Satyan got out - mobile phone in hand. Talking on the stair landing as I walked down past him. Then going back to his wife to tell her that I was definitely scared of him. She was just as insane - "very good!" etc.

10:15pm, strong radiation in my study, increasing for the past hour, focused on my head. Both Ravi Menon and Meghana Menon responding to the moaning of the perverts Nimp and Satan jr. outside.

2009 09 02 Wed

Today as well, major work going on in the Menons flat - the hammering noise continued.

Went out shopping at Marathahalli today. While driving back on Ring road, I was being targeted by radiation - again had to be very deliberate about changing gear, pressing brake, accelerator, checking traffic on the ring road before I merged in, could hear Nagaraja behind me, two pedestrians crossed my path, and Nagaraja threatening me if I collided with them. On my return, stopped at DRDO shopping complex SBI ATM. Two fellows complete with army style haircut and sporting small children arrived. One in front of me in the queue, the other just behind me in the queue. Both paandis. Both possibly in their thirties. Both responding to the people in the vicinity staring at them and making comments by responding with the usual paandi status muttering.

**At the ATM I could not remember my SBI card PIN. Tried a couple of times, I could recollect the numbers but not the sequence. I finally used my IOB card, but even for this I had to consciously think hard, and was not sure - thankfully it worked. I have been using the SBI card almost every**

## **other week to withdraw cash for the past three years !**

The fellow who had been in front of me in the queue was again in the provisions shop on the corner when I went there to pick up my usual 10litre can of bottled water. Again in zombie mode...

At night when I went to bed, I spent some time trying to recollect the SBI pin number, and it finally came back to me ...

2009 09 01 Tue

All day long major hammering sounds coming from the Menons flat downstairs. A bunch of north indian workers downstairs in the basement garage with a supervisor when I went downstairs around 12:30pm. One of them on seeing me saying "Hari saab ko bolna chahiye". The supervisor looking away and saying "yeh hamaara kaam nahin". I would guess if they are Total Environment employees, then they are up to their usual devious criminal mischief.

7:15pm, Ravi Menon targeting me now in my study. High radiation, heat sensation, pressure in my head.

2009 08 31 Mon

6:40pm, Ravi Menon below me, the radiation climbing in my study as it gets darker.

2009 08 30 Sun

This morning the same government pervert who had shown up in the middle of the night in the Menons flat was out on the road, proclaiming that he was "not part of this!".

All day long, the Menons following me around my flat underneath me, spiking the radiation occasionally.

Now 11:43pm in my study, Ravi Menon just giving me another burst of radiation.

2009 08 29 Sat

4:10pm, the sex deviants have been in a frenzy of loud status reports on the street around my flat. "Elaar-uke pidikyam ponoo!", Satan jr., the Nimp, Nagaraja, the Nimhans paandis. **It was all well orchestrated, because it became clear that the Menon have been re-supplied with some heavy duty radiation equipment today. Intense skin burning and prickling sensation, Ravi Menon and Meghana Menon following me around the flat beneath me- giving me high bursts of radiation as I worked in my balcony, then as I stood in my kitchen, again in my study, all in sync with the bawling and squealing of the diseased pigs outside.**

**After I wrote this, Meghana Menon below me going "he's stupid!".**

10:15pm, another burst of intense radiation, skin prickling over my entire body. Ravi Menon targeting me from below.

10:50pm, Ravi Menon boosting the radiation again in my study.

2009 08 28 Fri

8:40pm, the Menons have been targeting my head with different forms of radiation in what seems to be an experiment, for the past hour or so. Feeling nauseous, pressure in head. Meghana Menon below me very active now, I suspect she has been sleeping through the day.

2009 08 27 Thu

Same sadism pattern last night as on Tuesday night. The Menons keeping me awake by simply cycling the radiation until I shouted, then reducing it slightly until I was on the verge of dozing off again, and repeating the process. It appeared to be Ravi Menon most of the night.

All through the day again, the uncle-niece duo taking turns keeping me targeted all the time. Now 7:20pm, the police sex deviants have raised the level of their deviants drama on the road, and the Menons, as always in sync, have raised the radiation in my study.

8pm, the sex deviants are just outside my building, right below on the street, and the Menons are eagerly in sync, just got a big burst of radiation.

10:05pm, Ravi Menon below me - very strong radiation targeting my head.

2009 08 26 Wed

Nagaraja and his sidekick "Kumaresan" showed up last night outside the flat to "prime" the Menons for the nights activity, and as I got into bed, Meghana Menon was in full drama mode - apparently she had been sleeping, and had been woken up for the nights sadism duty - both uncle and niece in full mock outrage, Meghana Menon getting in position underneath me. The radiation was very calculated, every half an hour or hour as I was dozing off, they would increase the radiation until I shouted out, then gradually decrease it, muttering all the while below me. This happened about 8 - 9 times through the night. Outside some more police arriving to do the good cop routine, telling someone on the street that they were dogs, that their children were dogs too, etc. But they were careful to keep the attention focused away from the Menons - the sex deviants were left in place with their equipment - no change to the radiation pattern.

Now 7:50pm, in my study. High radiation targeting my upper body and head. Neck itching, pressure sensation in my head. The Menons are setting up for another night of depraved sadism, full of indignation and outrage at the very possibility that someone could question them.

2009 08 22 Sat

Got back from Yelagiri around 11:30pm to my flat. When I got in, I found the fan running in my study. When I turned on the PC, it again showed incorrect time - 1/2 hour behind.

2009 08 20 Thu - Fri

Drove down to Yelagiri to meet a german PG pilot - stayed at a new resort Peters Park in a two bedroom house. The sex deviants had already installed themselves in a house behind - was targeted through the night with intense radiation.

2009 08 20 Thu

**The Menons again waited for me to fall asleep last night before targeting me with radiation. Woke up to very intense radiation blanketing my upper body, and even more focused beam targeting my head. It was very evident from just moving my head six inches to the left and right, where the beam was being focused. Had the sensation of being cooked.**

Ravi Menon and Meghana Menon taking turns to target me each time I shouted out. Later in the early morning, woken up again with intense radiation, Meghana Menon below me targeting me - she was simultaneously practicing her dramatic skills "we're not leaving!" and "but I didn't do anything!" adding some weeping to the mix.

Now 10:40am, high radiation in my study again targeting my head, the uncle-niece duo roaming around just under me.

12 noon, just replied to an SMS from a visiting german paraglider pilot in Yelagiri that I might drive down to join him this evening. Immediately the Menon uncle-niece duo below me muttering, increasing the radiation and keeping it very high and sustained even as I shouted out a few times.

2009 08 18 Tue

4:15pm, very high sustained radiation in my study. The Menons rather quiet below me, just watching as I fidgeted and then finally shouted. As I type this, a male sex deviant below me muttering, radiation still high, targeting my head. Apparently they are venting their rage in calculated response to a status broadcast from the perverts outside.

6:20pm, another burst of very high radiation, it seems to be Ravi Menon now below me.

**The police, nimbans and other sundry sex deviants are doing an excellent job of keeping the status quo exactly as it has been for the past decade, or deteriorating, while making strenuous efforts to give everyone the impression that they are all in imminent danger of facing justice....**

2009 08 17 Mon

Ravi Menon and Meghana Menon alternating turns last night - very intense focused radiation on my head. They were waiting for me to fall asleep before targeting me - each time I woke up and shouted out a few times, they would reduce the radiation, and wait for me to fall asleep again. Morning intense radiation, Meghana Menon below me.

Went to Binary world store in BDA complex Indiranagar in the morning to order a new SMPS power supply for my PC. Two south indian perverts were already there - as soon as I walked in, one of them slyly raising his voice to tell the other "we need to order SMPS". A few minutes later as I was standing behind them, the shop clerk asked them for a name, for the bill. The same fellow, now hesitating, looking at the other fellow, then after a pause, "Ranganathan".

Now 6:20pm, the Menons have been following right underneath me all day long to keep me targeted. The two of them have been very cold-blooded and methodical the past few days, even with all their woe is us melodramatic mutterings.

8:30pm, high radiation in my study, when I shouted out, Meghana Menon below me immediately reacting "i'm not going!" - radiation stayed high.

2009 08 16 Sun

Last night, radiation was high enough for me to shout out a few times - at one point, when I shouted, a full cast of perverts outside the building sprang into action. From all corners, different sets doing their programmed skits, a woman loudly going "Its Shine On, Shine On" - more paandis on the road, "Run faster!", the cops hanging around to keep an eye on the proceedings. Ravi Menon below me muttering something about being given permission to protect themselves by targeting me with radiation.

6:20pm, just a few minutes ago, my PC froze, I had to reboot it. Now radiation climbing in my study, Ravi Menon below me with his niece. After I typed this, the level has increased, radiation focused on my head.

2009 08 14 Fri

Again woke up this morning to intense radiation, and Meghana Menon hovering underneath me. In the afternoon went to Nandi Hills with a group of local PG pilots. I chose not to fly, walked down the hill after a couple of pilots launched, around 6:45pm. As I walked down the trail, intense radiation targeting my head - a bad headache, this lasted for several minutes later. The North indian sex deviant making his presence felt, the full entourage of perverts in attendance - full background commentary going on all the while.

I was dropped back home by one of the pilots. As I entered the building - another sex deviant - south indian male maybe in his thirties, zombie appearance - army style haircut came walking slowly past the building. After he passed me, he began talking to thin air "Where do we go from here?" Then took a right turn and walked behind the next building.

Got into the flat to a sensation of heat and radiation - when I went to bed, it continued, high heat sensation.

2009 08 13 Thu

**I actually slept through all of last night, waking up this morning only when it was light. I can't remember the last time I slept through the night - possibly years ago !**

Am not sure if it was accumulated fatigue, because when I woke up, the radiation was already high, the Menons were right under me - both Ravi Menon and Meghana. The radiation continued when I went to the kitchen to have my breakfast, they were targeting my genitals all the while, apparently getting much plea-

sure from watching me scratch. The paandi police in position outside, the Menons muttering to each other.

7:40pm, already high radiation in my study, Meghana Menon roaming underneath me to keep me targeted.

2009 08 12 Wed

Returned from Allapuzha on Monday morning. We stayed at the Bamboo Stix backpackers resort on an island in Lake Vembanad. Saturday night the usual radiation from below as I tried to sleep in my room. Nagaraja and the full entourage of perverts were present to ensure the foreign sex deviants got their full moneys worth of Indian police private services.

Took the KSRTC 8:30pm bus back from Allapuzha on Sunday night, it was coming from Trivandrum. I was in seat 31 in the aisle, across the aisle from me in the window seat, one of the sex deviants was already in position - a skinny fellow - obviously affluent, north Indian - fluent English - immediately getting into a routine as soon as I sat down. Talking on his mobile phone about a trip to "Bali" (a local PG pilot had been discussing a paragliding trip to Bali with me a couple weeks ago), then a disjointed monologue about the sex deviants (it did not appear to be a conversation, from the way he was talking, more of a monologue into a phone - not sure if there was anyone on the other end). "They are going to play their last prank, then they'll leave!" He appeared to be psychotic - after finishing the routine, did not hear him speak again. Got a video of him.

The seats behind me were occupied by a south indian couple - woman in the window seat. They had the radiation equipment - early am when the passenger in the window seat next to me got down, I shifted to the window seat. Immediately could hear some shuffling behind me, and my head was being targeted by the radiation again. The woman doing the paandi routine "nyaan chaanamaare aano?". Each time I looked around, the two had identical expressions on their faces, eyes closed, both with blankets draped identically upto their necks, both in the same posture. Got a video of them too. Have the feeling they are part of the entourage that parades up and down on the road outside my flat in Bangalore.

After a couple of days of discomfort level radiation after my return from Allapuzha, the Menons are comfortable again to raise the level of radiation today - first boosting it in the afternoon, and now at 5:20pm, Meghana Menon coming into the room below me to spike it again.

This morning a Nimhans female pervert arriving to broadcast her status to the neighbourhood "i've never been so humiliated. They are not interested in my opinion!" - a clear indication that all the perverts are comfortably in position again to resume their sexual perversion and loudly bemoan their fate - they are being insulted, ridiculed, their names are spoiled etc.

11:10pm, Meghana Menon below me, radiation increased again - upper body and face skin pricking.

2009 08 07 Fri

**Woken up middle of last night to discomfort level radiation targetin my upper body, and voices below me in the Menons flat. One voice was familiar - it sounded very much like my cousin Shantha Sheela Nair, an IAS officer in New Delhi. Another male voice with her - both apparently questioning the Menons. Something about "IIT", the Menons coolly responding to a question with "they are army officers". The woman who sounded like my cousin telling the other one "He thinks I'm trying to destroy him". A few minutes later the interrogators left the Menons flat, and the Menons spiked the radiation. Outside the usual entourage of police and nimhans sex deviants were lined up for their nightly tamasha.**

**In the morning I understood what the whole set up was all about. One of the usual perverts - a ranting woman - was on the road to loudly let everyone know that if the sex deviants had fooled "secretaries", how were common folk expected to not fall for it etc.**

**More sex deviants arriving to do a background description of the two persons who had been in the Menons flat - saying that the male was one of the group of sex deviant government officers. That the sex deviants were able to get into "everyones heads". Followed by long detailed description of their personal lives, for the benefit of the neighbourhood.**

Now 3:30pm, Ravi Menon targeting me in my study. Am off this weekend to Alleppey for the boat race - joining a photo workshop.

2009 08 05 Wed

Meghana Menon and Ravi Menon periodically taking turns targeting my head with focused radiation last night. This morning the usual Nimhans/police/reporter "all of us have been arrested/taken away/charged ..." "he is from Hindustan Times!" drama with lots of door slamming etc. and after they were satisfied with their own drama, Meghana Menon came back to the room below me to spike the radiation enough to get me to shout, then she was satisfied for the moment muttering "We are NOT moving from here!" as if she called the shots for the Menon family now, and the thought of being asked to leave her residence for some silly voyeurism, radiation exposure torture, burglary and poisoning was just too outrageous.

This mornings paandi drama was joined by the latest deranged Total Environment employee (deranged appears to be the default description for their staff) working as a sweeper in our flat building. The fellow seemed to be inordinately interested in the possibility of seeing me in my night clothes when I open the front door to get my newspaper in the mornings - today he was on the terrace, next to the balcony opening on to my bedroom. Banging his broom and making strange noises - that woke me up and he then moved away.

Later in the morning, I was attempting to use my bank online funds transfer, and the Menons immediately on high alert below me - muttering to themselves as I entered the password. "Kumaresan" then shrieking outside on the road that I had given my password to the perverts. The Nimp in full form next to him.

Now 12:10, Meghna Menon below me - radiation at discomfort level. Very calculated perversion routines.

2009 08 04 Tue

Concentrated radiation targeting my head all of last night. Both uncle and niece keeping the radiation focused on my head - again got up this morning with my head aching, hurting when I moved it.

Meghana Menon keeping me carefully targeted all through the day. Now 9pm, strong headache, she has been below me all the time. Just after I wrote this, Ravi Menon muttering below me - it looks like he has taken over the radiation exposure shift, radiation level has increased again.

2009 08 02 Sun

Reading the paper today about the Kashmir "sex scandal" involving minor girls in prostitution - a small article listing the authorities involved, Police SSPs, DIGs, IAS officers, the Advocate General, etc. etc. Not so incredible India after all. These things come to light only when one politician sees an opportunity to go after another - never due to the efforts of any govt. officials ...

All the positions, procedures, responsibilities, hierarchies, policies in place ... and diseased pigs in clothes staffing the positions, "governing" us. And the upright, decent ones with integrity (meaning those that don't take bribes) looking the other way.

Strong radiation last night, had to shout out several times until the Menons were satisfied with the reactions they got from the perverts outside. Then the radiation cycled through the night, another few spikes in the morning, as Meghana Menon or her uncle came into the room below me and casually increased the radiation until I shouted out.

The same pervert I saw yesterday in the Menons balcony was hanging around in the same area again today late this morning, trying to get my attention, doing the standard pervert routine "nyaaan chaana maare aano?".

7:50pm, Meghana Menon below me - radiation in my study spiking, increasing steadily, with the police perverts outside to orchestrate the show.

10:50pm, radiation in my study getting higher, targeting my head, the Menons getting impatient below me.

2009 08 01 Sat

Just updated my website and NHRC with my logs.

4:55pm was in my balcony hanging up clothes to dry, heard a male voice downstairs. Looked out to see a younger man - not Ravi Menon - in the Menons balcony - balding, beard - maybe in his thirties, wearing

shorts. Speaking on a mobile phone in Malayalam to someone while walking up and down. "Auntie, ..." "avaru vonnam cheyidila" ... that I had spoiled all their names. Maybe his presence could explain the small boy I saw some days ago coming out of the Menons flat. At the same time, the Nimp was thoroughly stimulated shrieking "he's lost it!"

**It is literally incredible to see this extended family of sex perverts - they appear to have been custom designed for cold blooded perversion. There doesn't seem to be anyone in their extended family with a spark of human decency or human intelligence - just pig like cunning.**

**They want their sadism and peep show voyeurism, they feel they are entitled to it and thats the end of the story as far as they are concerned.**

**Any issues, they pick up the phone and call "uncle" and "aunty" to make sure they are not bothered by trifling issues like the neighbourhood informing the police about their activities.**

Later in the evening, the same fellow I had seen in the Menons balcony, walking up and down in the same area and trying to get my attention - "nyaan paandi aano?"

8:15pm, a male pervert in the Menons flat has increased the radiation for the past hour - now very high and steady in my study - skin prickling on my chest and neck. He just grunted when I typed the last sentence - moving below me. Now am not sure if its the same fellow or Ravi Menon - Meghana Menon is also below me. After I shouted out a few times as loudly as I could, the paandis spiked the radiation again. The paandis on the street in their bawling element - Nimp beside himself in dramatic sobbing about "Lokesh".
